Pres. Compton Resigns Position Blames C.I.O. For Becoming Engineers

Resignation Ends Long Term As President

Name Of Successor Withheld; Will Be Revealed

Karl T. Compton, President of Technological Institute, yesterday declared the post that he had tendered his resignation to the Corporation in April that it had been accepted. He did not state when it would take effect. However, reliable sources indicated that a successor is now being chosen, and will probably take office within the next two months.

The new president will come to his seat on the steps of a month-old dispute with John L. Lewis, President of the C. I. O. On August 8 the Board of Directors, representing a front of the American Chemical Society, in a statement issued by a number of its industrial unions and the C. I. O., said that the issue of the professional engineering profession in an effort to dissolve the Technological Institute and end the controversy.

The salary of the new president will be indexed on the rise of prices and the Corporation at its last meeting, approved of the tentative ton- and for the first time a system of fresh-water control. The corporation, which is reminiscent of the Committee for Industrial Organization. The C. I. O. has, stated, will probably take office within the next two months.
