Friday, Sept. 24
2:30 P. M.—Freshman Camp begins (See camp schedule on page 1).
4 P. M.—Freshman Cord Tie—Margaret Cheney Room.
Monday, Sept. 27
8 A. M.—The Tech breakfast.
9 A. M.—3:30 P. M.—Registration.
8 P. M.—Rally at Backhouse.
4 P. M.—Tea for Women Students—Margaret Cheney Room.
6:30 P. M.—10:00 P. M.—All Tech smoker—Main Hall, Walter Memorial.

Tech To Stop Making Own Electric Power
Cambridge Electric Company
Will Relieve Burden

Late this year the Institute will begin buying all its electric power from the Cambridge Electric Light Company and thereafter Technology's power plant will be used exclusively for heating purposes. This change in power supply is due to the fact that the present power plant cannot meet further demands for power which have steadily increased during the past few years. In addition to the present power load, the new wind tunnel and the powerful magnet developed by Dr. Francis Bitter for research will greatly increase the demand for power in the immediate future.

A study of these power needs indicated that the most economical plant would be to use the present power plant for heating purposes and buy electric power from outside sources, thus avoiding a heavy capital expenditure for enlargement of the Institute's power plant.

Frosh Smoker
(Continued from Page 1)
be brought before the assembled freshmen, to say nothing of one of Walker's excellent dinners. Addresses will be given by Professor A. A. Schaefer, Frederick G. Passett, who will review the accomplishments of the various publications, Lester Y. Hamilton, who will discuss the musical clubs, and Dr. J. A. Rockwell, who will describe the accomplishments of Technology athletes. The ever-popular Ohio Denison will be the master of the light entertainment. The new Tech men will listen to renditions of "Women, women, women" and other old favorites by Ohio, and then join him in singing the Technology songs. Wrestlers and footters will also aid in recapturing wandering minds.

Admission will be only by free ticket which may be obtained in the Main Lobby on Registration Day. Entering students, including transfer students as well as freshmen, will assemble for the first time in one body, and to add to acquaintances made at freshman camp. When the smoke ends at 10 o'clock with the singing of the class song, the Class of 1938 will leave the hall with a feeling of being part of Technology and sharing its glorious traditions.

Case School Sophs Seek Frosh President
Fresh president must beware of the Sophomores at Case School of Applied Science in Cleveland. At that school the president of the Class of '41 has a price on his head—$10,000 worth of insurance with Lloyd's of London. That sum of money will be paid by Lloyd's if the Sophomores succeed in kidnapping the Frosh president before the annual freshman-sophomore game-time.
