Faces As Power Fails For Several Minutes

Waller Dinners Are Bewildered; Opportunity Made ... Fruit Juice

Chaos reigned in Waller last night as a power failure for several minutes sent the occasion by sliding past the cash register leaving the interval. Others gladly sought in vain.

Waller students were startled when they were seen to be being alarmed in the vast shadowed hall guiding bewildered diners to their phones with the aid of a match. Several over all diners suffered burnt fingers in their heroic efforts.

Many of the late diners continued to eat on the floor that they tasted; all the first Waller meal they had really enjoyed. However, their futures were radically changed when the lights went out before they had finished the meal, and there was no chance to eat anything. Several distinctly feminine aromas added to the confusion. Explanations were sought in vain.

During the five minutes interim all forms of food were consumed. The probable explanation, according to Wallers, was that the lights went out for a period of five minutes. Several opportunities made this the occasion by sliding past the cash register leaving the interval. Others gladly sought in vain.

Dinners are Bewildered; Opportunity Made the best of it, in spite of the confusions.
