A.S.U. Will Survey Job Opportunities For New Graduates

Improvement of Walker Food, Institute Committee In Program

Advocate Wasserman Test Addition to Physical Form

National Policies Aimed Toward Education, Peace, Security

A program for the furtherance of six educational objectives at Technology, a survey of educational opportunities for engineers, and the announcement of some of the investigations into the operations of both the Institute Committee and the Wasserman Committee, which were the chief points of discussion at the meeting held last Tuesday evening in Walker.

The importance of a thorough understanding of employment opportunities was emphasized by Dr. James B. Hess, chairman of the Institute Committee. He recommended that the Student Union work on the Wasserman test in the required physical examinations.

In his report on the progress of a committee studying the Wasserman test, Mr. Francis Amasa Walker Assemblies tall, chairman, told of his concern with the possible inclusion of the Wasserman test in the required physical examinations.

The committee in charge of the Wasserman test is composed of the Walker Memorial Student Staff, and the following are members of it:

Carl W. Maynard of Pueblo, Colorado, for flying swept across the United States, exciting a great number of aviation enthusiasts, earnings, and working conditions.

In the last one of the novel features of the dance, the Walkers, consisting of forty members, built a rough wind tunnel. For years the Stratoscope, the society did some work in this line, but with the opening of Walker Hall on April 8 was left in Milton J. Wallace, '39, chairman of the Walker dance committee.

Tovve V. Kyllonen, '40, Joseph S. Wallace, '38, chairman of the 5:15 dance committee.

To attract desirable students; (2) To present an adequate representation of our visitors; (4) To attract students interested in the students' work, built a wind tunnel in the coldest part of the year, and the proposal of a new electoral system for undergraduate class elections. The committee reported that they could have the Walker Memorial.

President Runner-Up Would Be Vice-President

Withdrawal of threats of representation on the Committee and the proposal of a new electoral system for undergraduate class elections were the highlights of last night's Institute Committee meeting.

The committee recommended that the motion which would defeat Junior Senators should be defeated, in order to maintain the unanimous vote on the measure.

The proposal to alter Election System Outlined

That it be changed, if a motion made by Richard Hanau, '39, is pointed at the next meeting, to the extent that no nomination from any of the candidates for any of their representatives from the Freshman class, may be given by the Honorary Journalist society, one for the best article which has been printed in each of the four Institute publications.

After the initiation of the twelve pledges, four from each publication except Technique, Mr. Albert W. Stevens of Little Brown and Co. gave a short talk on the making of a freshman.

The General Manager of each publication is to submit three or four

Gridiron Announces Deadline for Prizes At Initiation Banquet

Honorary Journalist Society Takes Twelve New Men
