oral part of the training that do not

consider. Technology's function is
to give thorough professional instruc-
tion, he holds.

The plan of having students spend
three years at a liberal arts school
and two here, receiving both a B.
M. at Tech, and a M. S., is hopeful he thinks, for
it gives a needed combination of both
liberal and technical training. This
scheme has been in execution for
several years a number of colleges
such as Bowdoin, Ohio, Wesleyan
University, and Williams College co-
orperate.

Cook Degree at Harvard
Rogers prepared for college at
Cambridge High and Latin School;
he got his B. A. and M. S. at Har-
vard. He was elected to Phi Beta
Kappa while at college. Immediately
after graduation he accepted the post
of instructor of English at Williams
College for 1909-10. The next year
he went with the Manhattan Adven-
ture Company, after which he joined the staff of that the Maude Adams T

paper campaign. Any would-be jour-

nalists wishing to write up Open
House material for the Boston papers
are asked to contact Harry Hub-
lder, 38.

Prizes to Be Awarded
To stimulate those setting up ex-
hibits to greater heights, five en-
graved rolls, with ribbons will be
awarded to the five most interesting
and instructive exhibits. In view of
the large number of exhibits being
planned, the first prize blue ribbon
will carry no little prestige to the
course which wins it.
