Today's Lecture On Safety Precautions Called for in Weekly Meeting

The lecture on safety in industry scheduled for today has been postponed until next week by the Faculty-Student Committee on Building Safety.

The reason given for the cancellation of this lecture, the last in the series, is that sufficient interest, Mr. Fred Biddleworth, would have been necessary to make the program profitable.

The lecture will be given by Dr. Louis J. Gillespie, chairman of the Division of Occu-

planetary Safety of the National Advisory Committee for Aeronautics. The Department of Labor and industry, is to be held today at the Institute in the Science Building.

The subject for discussion is "The Prevention of Occupational Diseases by Engineering Methods."

First Intramural Track Meet Held Is Huge Success

Deoks Carry Off First Honors In Field Of More Than A Hundred

Sigma Alpha Epsilon Is Second

The first truly intramural track meet in the history of the Institute came to a close yesterday afternoon with everybody congratulating each other, and Delta Kappa Epsilon carrying off top honors with 18 points.

Both in point of view of members and in scoring, the meet was a success. Nearly a hundred contestants swarmed out on Tech Field both Tues-

Monday, Basset Jones, the chairman of the union, explained the gigantic and intimate nature of the meeting, and Dr. Dirk J. Struik, president of the 5:15 Club to 200 at the Institute Committee meeting. The meeting will be held in the Walcott unit of the Dormitories.

The motion was passed by the 5:15 and Richard Engeiken, consulting engineer, for the 1939 New York City, for it will be several miles.
