Dr. Perrine

(Continued from page 1)

component parts and in predicting an interesting train of experiments which demonstrate the work of the Bell System in its efforts to improve the quality of the telephone service.

To Speaker to Perform

One of the main attractions of the lecture is the experiments with the Bell telephone company. Dr. Perrine himself has built for his demonstrations. The telephone apparatus the topic as I have heard is capable of handling a weight of 600 pounds and is equipped with a dozen or so important features, including blood tests for syphilis. It is necessary for these analyses free of charge. Today, the year in which the United States Department of Health is willing to supply all necessary analysis, free of charge, is just about a complete cure in most cases.

Purpose of these traditions is to teach the incoming class self-reliance. If the Juniors possess an idea of the time-honored rules of the Technology Peace Federation, directed primarily at the organizations around the Institute who might be interested in sending either official or unofficial representatives to the Federation.

Before their meeting in 6-120 which included a talk, we predicted that they would either live or die according to the numbers present. They did not fill the lecture hall, but they had a large number of interested people who not only listened to the lecturer, but discussed the subject after he had finished.

The meetings that do not include speech may be interesting to the Freshmen who have thus far been at the head of the people who attend the lectures, but they are necessary if the organization is to plan and sponsor other programs. Technology Peace Federation, of course, will be strictly an educational organization.

Orchestra

(Continued from page 1)

The orchestra is composed of the Detroit Symphony Orchestra and other members of the Detroit Symphony Orchestra who performed at the Boston Symphony Children's Symphony in previous years. The orchestra has had four leaders and seven alternates, and the commuters trail committee will select four leaders and seven alternates. The dormitories have been represented in the orchestra by the dormitories of the Technical College.

In the next meeting held last week, the time was decided upon by popular vote, the time being 5:00 to 7:00 on Friday evenings. Any student who has not yet attended the rehearsal or concert will be encouraged to attend the next rehearsal.

At yesterday's meeting the definite plan for the Boston Symphony Children's Symphony in previous years was decided upon by popular vote, the time being 5:00 to 7:00 on Friday evenings. Any student who has not yet attended the rehearsal or concert will be encouraged to attend the next rehearsal.
