Compton's Report

For the efficient functioning of the building in Architectural Engineering, it is essential to have architects who are familiar with the latest techniques in design and construction. The report suggests that the architects should be trained in the use of modern building materials and methods, combining aesthetic and technical considerations in the design process.

Implications of Technology

Mr. Compton emphasized the importance of technology in the architectural field. The report highlights the need for architects to keep up with the latest technological developments to ensure that their designs are not only aesthetically pleasing but also technically sound.

Perrine Lecture (Continued from page 1)

YANKER PAFELE.--This new comedy, starring Charles B. Fitzsimons, made its debut at the Roxy Theatre. The story concerns the life of a New York theatrical manager, Vanya Nairn, who is trying to manage a successful Broadway show. The play is set in a New York hotel and features a cast of characters including Charles B. Fitzsimons, Gladys Cooper, and Edna May. The show received positive reviews from critics and audiences alike.

The report concludes that the performance was well-received and that the audience enjoyed the comedic elements of the play.
