Class Of '41 Beats Frosh In Field Day
Score Ten To Five; Sophs Defeated In Crew Race

Tens of New Clothing
In one of the closest finishes in the class of '41 were 'the annual Petitieau's Day for the score of 10-5, the race beginning and concluding just past the clock of the Gridiron Field Day event.

Up to the Gridiron, the Sopho- nates were leading by two boat lengths. Although they thus lead, it would not have been a big advantage unless the last boat of the Class of '41, a new vessel, was able to pull past them. This did happen, however, and the Class of '41 won the annual Petitieau's Day for the score of 10-5.

Senior Rings Displayed In Main Lobby, Nov. 1-4
Senior rings will be on display at the Main Lobby until the fourth of November. Seniors and graduate students are advised to come and take a close look at their orders. The ring committee states that the rings will be displayed in the Main Lobby from 10 a.m. to 4 p.m. on the fourth of November.

The To Hold Tech Poll On T.C.A.
T.A.

Four Questions on T.C.A. Drive Asked Of Students By School-Wide Poll
Four questions pertaining to the current T.C.A. Drive will be asked of the student body in a school-wide poll to be held in the Main Lobby tomorrow.
The poll will be conducted in Friday's issue of THE TECH, and will show the combined opinion of the students in the following questions:
1. How many dollars have you contributed to the T.C.A.?  
2. Do you think the money could be put to better advantage?  
3. Do you favor the way in which the American Student Union is being conducted?  
4. Are you willing to vote for the proposition to continue the drive for the year?

Monroe Wins Football Top Over Runkle By Safety
By a margin of a safety Monroe squeezed into the quarter finals of the football championship sponsored by the Beaver Key Society when they defeated Tunkhannock 24-0 last weekend.

Two other teams that received invitations to the quarter finals, Phil Delta Delta and Nu Delta Sigma, also defeated their opponents. Phil Delta Delta defeated Runkle by shutting out Phil Beta Epsilon by the score of 10-0.

In an earlier round Kappa Sigma won by a score of 139 against the Student Union house, and Phi Mu Delta defeated Union Veta Phi 22-13. Kappa Sigma and Phi Mu Delta will fight it out for the last berth in the quarter finals.

Up to the quarter finals every one receives one point for each game played. The four remaining teams will play a round robin to determine the champion. In this round the winner of each game played will be credited with two extra points besides the regular single point.

Coach Oscar Hedlund Predicted Field Day Exactly In 1934
Will Continue To Forecast As In The Past Despite Rumors
Coach Oscar Hedlund, the official forecaster of Field Day, has a name for himself when it comes to forecasting the weather. Last year he predicted the weather to be sunny.

This somewhat tautological statement is made in light of the fact that Coach Hedlund predicted the weather exactly in 1934 when both the Ohio State University and Michigan football teams met. He correctly predicted the weather to be sunny for both teams.

Next year he took a mighty fall from his pedestal. The (fraudulent) climate, instead of being sunny for the football teams, instead of being sunny for the football teams, instead of being sunny for the football teams, instead of being sunny for the football teams, instead of being sunny for the football teams, instead of being sunny for the football teams, instead of being sunny for the football teams, instead of being sunny for the football teams...

To Continue Same Forecast
At the Field Day banquet last Friday night, Coach Hedlund, instead of having his warming words, told the football teams that they would never again predict that a Field Day forecast would be sunny. It was a fun event. But in a sad event. And for the future, THE TECH'S last night he said that he would continue to predict in exactly the same manner as he had been the consensus in the past.
