THE TECH SPOKES
AND HOW TO SQUASH THEM

Spokes, ghosts, and the general idea of having a ghost in the friendly neighborhood are frowned on by many people. It is generally thought that having such things in the neighborhood is not good and that they are not to be tolerated. However, if one is to live in a neighborhood, it is important to understand what a ghost is and how it affects the neighborhood. It is also important to know how to deal with a ghost if one should encounter one.

THE INSTITUTIO SPOKES

Spokes, ghosts, and the general idea of having a ghost in the friendly neighborhood are frowned on by many people. It is generally thought that having such things in the neighborhood is not good and that they are not to be tolerated. However, if one is to live in a neighborhood, it is important to understand what a ghost is and how it affects the neighborhood. It is also important to know how to deal with a ghost if one should encounter one.

LETTER TO THE EDITOR

In reference to the "Issues" column which appeared in the last issue of The Tech, I would like to make a few comments about the following issues.

1. The first issue that comes to mind is the idea of creating a community center in the neighborhood. This idea has been discussed in the past, and I believe that it is a good idea. However, I think that we should be careful to make sure that the center is not used for any illegal activities. If we are careful, we can create a community center that is used for good purposes.

2. The second issue that comes to mind is the idea of creating a park in the neighborhood. This idea has also been discussed in the past, and I believe that it is a good idea. However, I think that we should be careful to make sure that the park is not used for any illegal activities. If we are careful, we can create a park that is used for good purposes.

3. The third issue that comes to mind is the idea of creating a community garden in the neighborhood. This idea has also been discussed in the past, and I believe that it is a good idea. However, I think that we should be careful to make sure that the garden is not used for any illegal activities. If we are careful, we can create a garden that is used for good purposes.

4. The fourth issue that comes to mind is the idea of creating a community center in the neighborhood. This idea has also been discussed in the past, and I believe that it is a good idea. However, I think that we should be careful to make sure that the center is not used for any illegal activities. If we are careful, we can create a community center that is used for good purposes.

I believe that these ideas are good ideas, and I think that we should be careful to make sure that they are used for good purposes. If we are careful, we can create a neighborhood that is used for good purposes.

NEIGHBORHOOD

The word "neighborhood" is rapidly becoming one of those terms in the English language which are sufficiently vague as to make it a well rallying call, but which usually have little import.

The recent conference at Lima, for instance, was just another example of the use of this word as a meeting-place for good "neighbors" but out of the maze of conflicting reports emerges an impression distinctly not of "neighborliness."
