FUND TO BE DOUBLED

A plan-wide search for ten young executives to begin special social and economic studies here in June was announced by President Karl T. Compton. The Sloan Fellows, as they will be called, will receive fellowships of up to $2,500 under a grant of $50,000 from the Alfred P. Sloan Foundation. This amount has been more than doubled over that of previous years because the Foundation felt that the success of true leaders of the industrial community depends on the proper preparation of the young leaders.
