Quintet Ends Season Beating Tufts' Team

In Hangar Gym 43-13

Schneider is Star In Last Game For Tech

Lord by Paul Schneider, tall center, who was playing his last game for Tech, the Institute's hoopsters defeated the visiting Orange, 59-44, last night in the Hangar Gym, 43-13. Immediately after the first whistle went off, a short Fred Herschlag. Sophomore forward opened the scoring with a long shot from the right side of the key.

Tufts Expected Pushback

At one time Tufts realized they were up, 5,9-4, and the series of six points they had exerted. Expected Tufts to pull away, but they had not.

W. H. Hagenbuch Elected To Head T.C.A. Tuesday

Fifield, Shmurn, and Taylor Chosen for Other Positions

William R. Hagenbuch, '36, was elected President of the Technology Christian Association at the organization's annual meeting held Tuesday afternoon in the T.C.A. offices. Twenty-six of the twenty-nine Cabinet members participated in the election. The outcome of which pleased, James M. Yerid, '40, vice-president; James J. Shipman, '40, treasurer; and William R. Taylor, '41, as necessary.

The retiring officers include Elmer F. Dafoe, '39, president; J. Warren H. Fife, '38, vice-president; John A. bows, '39, secretary; and Nicholas R. Curtiss, '39, manager. The administration of the T.C.A. will be turned over to the newly elected officers next Friday, at which time the new Cabinet will be formed.

Fifield to Succeed Hagenbuch

The new Cabinet will be composed of the following members: James M. Yerid, '40, president; Robert E. Johnson, '41, vice-president; Charles H. Seabrook, '41, secretary; and William R. Taylor, '41, treasurer.

Hagenbuch's speech, delivered in the Faculty Room of Walker Memorial, was greeted with applause from the students present. The new President, in introducing his Cabinet officers, stated that they would try to do the best work possible.

Slides Illustrate Godfrey's Speech

Colonel Discusses Problems of Military Engineering at S.A.M.E. Dinner

Illustrating his talk with slides Colonel C. R. Godfrey, father of Charles S. Godfrey, '39, spoke last night at the Student Army of Mechanical Engineers in the Purcell Room of Walker Memorial. His subject was "The Problems of a Military Engineer," and he discussed the problems of a military engineer. His talk illustrated the importance of the subject, and its principles in modern military engineering.
