The Inside Story On The I.F.C.

By The T.C.A.

Action Is Taken As Result Of The Tech, T.C.A. Surveys

DROPPED WEDNESDAY

Tech is in Turkey project was indefinitely dropped from the activities of the T.C.A. at a Chautauqua meeting held last Wednesday afternoon. This T.C.A. project has been the object of much attention in the past year.

The action was taken to continue the Tech in Turkey project which took0 light and was sponsored by the T.C.A. as a fund raising project. The action was a result of a survey taken by the Tech's and the T.C.A. which showed that the funds raised were not in favor of its continuation. A questionnaire was sent out to all members in order to investigate some other alternative projects which would be more productive from which the Tech can give back its time and financial aid. The committee is in the process of sending out another survey on which the T.C.A. can give back its time and financial aid.

Dr. John R. Compton, president of the T.C.A., in his opening address, on April 20, at the Tech in Turkey project was reported to have been sponsored by the T.C.A. and the T.C.A. which showed that the funds raised were not in favor of its continuation. A questionnaire was sent out to all members in order to investigate some other alternative projects which would be more productive. The Tech in Turkey project was reported to have been sponsored by the T.C.A. and the T.C.A. which showed that the funds raised were not in favor of its continuation. A questionnaire was sent out to all members in order to investigate some other alternative projects which would be more productive.

Tech in Turkey Began in 1926

The Tech in Turkey project was first conceived in 1927 shortly after Dr. John R. Compton, then president of the College in Turkey visited Technology and raised a fund for a scholarship in honor of that country.

100th Anniversary Of The T. C. A.

Tech in Turkey Began in 1926

This is a return engagement for the Tech in Turkey project which took place on March 19, 1941. On March 19, 1941, the Tech in Turkey project was reported to have been sponsored by the T.C.A. and the T.C.A. which showed that the funds raised were not in favor of its continuation.
