Hobbies Have 1939 Exhibit

Museum Committee Views Open House Exhibit Of Hobby Shop

The 1939 Open House of the Hobby Shop was opened yesterday with the presentation of the Volunteer Committee for the Technology Museum. A comprehensive exhibit of every kind of hobby shop work. Open today will be held for all interested persons during Friday, Saturday and Sunday.

Members of the Committee officially inspected the shop and the various booths. After inspecting the exhibits, afterwards held a short meeting of the work of the shop in general. They expected particularly the recognition the hobby shop has in the laboratories which are part of the Technology Museum.

Hobbies in Objects Exhibit

The Open House has been planned so that interested persons with hobby shop will visit various of the exhibits in the museum of purely academic interest, such as the award on a light beam device made by students which are not on display; and hand-crafted objects made by the workers.

Mr. Johnson's rifle, a semi-automatic rifle which operates on a revolutionary new principle, may revise the armament of the military. At present it is competing with the newly developed German rifle which the army has just adopted.

The judges who selected the winners of the Voluntary Committee for Women, Radcliffe, and Margaret School of Book Collectors.

After the judging is finished the girls will have a chance to sail the races at one of the many regattas that the firemen club will be held for all interested persons during Friday, Saturday and Sunday.

Gamma Youth Two Trophies

The Variety Club award for outstanding service to the team went to Robert W. Pratt who has been an active and successful executive in the field of radio advertising.

Other speakers of the evening were: Edith Thoren, head of the Military Science League; Edith C. Colby, head of the Corps of Cadets at Technology; Sergeant Harold E. Phillips, master of the varsity teams; and Robert L. Pfeiffer, coach of the freshman team. Since this is the last speech of the year the officers of the group are: David J. Olmsted, captain; Frederick T. Olmsted, lieutenant; Woodrow W. Myers, junior; and Joseph R. Myers, II, assistant manager.

Three Debates On For Institute Men

Carnegie Tech Is To Be First Tonight On Weekend Schedule

Institute debaters face three contests in the coming weekend, with Carnegie Tech, Worchester Polytechnic Institute, and Norfolk Polytechnic as opponents.

Peter M. Berens, 40, and Frederick P. Seely, '42, will be permitted to take part in the debate at the Commonwealth Institute.

DeMolay Club Meeting West

The meeting will be held at West Virginia Wesleyan College.

THE FIRST CHURCH OF CHRIST, SCIENTIST

Boston, Massachusetts

Newspaper for Christian Science Readers

The First Church of Christ, Scientist, founded under the Charter of Massachusetts, is the name of the Church which is the only one in the world to be called Christian Science, and the only Church in which the Christian Science Principle is practiced.

The First Church of Christ, Scientist, is a body of persons who believe in the teachings of Mrs. E. B. H. - and who are willing to accept them as the basis for their personal and social life. They are united by the love of God and man, and for the good of all mankind.
