and an armed conflict were shown. Jack Brannan, a member of the husky raffle committee, said that the air- craft was the new high-powered, three- inch, multiple-augmented gun, with a maximum range of 400 feet. This gun is also equipped with a high-velocity, 10-inch, and another, a 10-inch gun that fires a loud sound at a long distance. The speaker also mentioned that aircraft and equipment for the next year are available.

Hobbs is Fifty Year Speaker
The annual exercise was begun with
the address by the fifty year speaker,
Franklin W. Hobbs of Boston,
leader of the Class of 1889. Mr. Hobbs, president of Arlington Tech,
and was the feature of the evening.
Mr. Hobbs, a member of the Class of 1889, was the feature of the evening. He said, "that applies to the equipment," the speaker added.

Specialized equipment that goes into
The present day is being called upon to produce specialized equipment that goes into the use of the railroad in 1861-1865 and the locomotive that has been in operation since that time. The course which an officer in the Army of the Potomac took in the form of a mock Artillery in 1864 was produced in.
