LOOK YE WELL, FRESHMEN!

At the end of this week, the first expression of the freshman class, as a unit, will find utterance in the nominations for the freshman class, as a unit, will find utterance in the nominations for the freshman class.

It is unfortunate that many of the freshmen have already misconceived that the fraternities run the activities around this school. This misconception has fostered the large percentage of fraternity men at the head of activities and in honorary societies. It is still more unfortunate that such a misconception is being propagated by the dummies, the inarticulate and worthless attitude of "what's the use?"

The large percentage of fraternity men in activities is not due to any strangle hold which fraternities have on activities. It is due to the fact that the fraternities have had in place at college, the interest and well-being of the individual Freshman and the houses at a whole sufficiently at stake to rush their freshmen into activities where they will be eligible for honorary societies.

Regardless of domicile grouping, all freshmen enter activities on a liberal basis and do not expect the entire Freshman class, as a unit, to go on to the sports or activities. This is true both in theory and practice. After his initial turn-out, it depends only on the individual freshman as to how far he goes in activities and as to how eligible he is for honorary societies.

It is not a matter of any strangle-hold, it is simply that the superiors which have gotten the fraternities where they are. The dormitories have the opportunity to put their men in activities and so in the honorary societies, if they will use them. They must get their freshmen into activities if they wish to get them into honorary societies; the same is true of the communities.

"THE CATS MEOW!"

Editor, The Tech:

It was with great pleasure that I read in one of your columns a little poem. It occurred to me the beauty of nature in the White Mountain National Forest. I have enjoyed, as far as I know, the writing of the poem, the pictures which accompany it; and I have been greatly interested in the poems and pictures of the American Poets. And I have found it quite an interesting and most enjoyable experience to read the poems and pictures of the American Poets.

October 7, 1939

Sincerely yours,
