Dr. Compton To Christen New Varsity Shell Today

Dr. Karl T. Compton, president of the Institute, will christen the new Pease shell, recently given by the class to the Technology Boat House. The shell, being named by the Varsity, will be named the "Kegur E. Holmes" in recognition of Mr. Holmes' efforts in promoting the use of the Charles River Basin for boating and recreation. Mr. Holmes is chairman of the Metropolitan District Commission and a graduate of Technology in the Class of 1940.

U. S. Post War Policy Is Scored By Dr. Compton

Two Students, Caldwell, And Prof. Robinson Also Speak

Concluding the disputes which broke up the United States from joining the League of Nations after the last war, President Karl T. Compton addressed the 1930 Peace Day demonstration sponsored by the Technology Post Federation yesterday afternoon in Kresge 242.

In his talk, Dr. Compton said he knew much would be done to prevent the present picturing of world situation. But this country joined the League.

Talks on Pan-American Relations
Dr. Robert Caldwell, dean of Harvard students, who is also formerly United States Minister to Bolivia, discussed relations between this country and South American nations. He applauded the fact that any sufficiently related existed between the two, and condemned the necessity of friendliness and good will.

Following Dr. Caldwell, Professor C. R. Robinson outlined why he believed that the attitude of the U.S. Army on leaving the country out of war held. "What the Army is attempting to do is to stimulate the people of this country and the incentive furnished by points to the flag." Dr. Hargreaves, R., acting member of the Board, discussed what ammunitie he thought could be made into the defense of the United States.

Foreign Loans

The subject of loans to friends overseas swamped in warfare was re-

viewed by L. J. Lebowski, 48, has scheduled speech on the subject. With the exception of a loan to Lima, Lebowi will discuss the problems of loans to nations at war or of fending countries which are not.

After the speechs had finished members of the audience o the speakers and a little discussion took place involving among ose students from Asia, Europe, and several other countries.

United States Health Service Head Lectures

Dr. Thomas Parran Talks On Nation's Health And Nutrition

SPONSORED ANNUALLY

Dr. Thomas Parran, Surgeon General of the United States Public Health Service, was the speaker at the annual William Thomas Bridge Lecture held yesterday after- noon at 3:45 P.M. in Montague Hall.

"The functions of which we as a nation have an apparent surplus are those in which the national dietary is deficient—fruits and vegetables, fats, eggs, seafoods, and milk. The sedentary life is one of the chief factors in the high death rate among the nation's candidates, who are remaining in the labor force during litigation.

"The best roads lead to Wiggins Airways!

July 4th, 1940, last

Robert E. Ray

W. McDougan, Jr., was elected secret-ary-treasurer of the class.

One Edges Arts for President
Jerome T. Cox was voted into office as president of the Class of 1942 after (Continued on Page 15)
