M.I.T.A.A. Is Run For And By Students

Are in Complete Charge of Athletic Association

Captains and Managers

In accordance with Technological's system of democratic student government, the M.I.T. Athletic Association is operated exclusively under the direction of the elected representatives of the undergraduates. As such, the body has supervision over all athletics, and will be subject to the control and direction of the President of the Institute and the Athletic Board. The latter body is made up of three alumni and three undergraduate representatives.

The function of the A.A., as organized in its constitution, is to promote and supervise athletic interests on Technology. Through this body, athletic events are supervised, and the organization of athletic teams is directed. Any student may serve in the capacity of manager. In general, any student who wishes to participate in athletic events must become a member of the A.A. and be associated with the body in some way. The A.A. is operated exclusively under the direction of the elected representatives of the undergraduates, and is subject to the control and direction of the President of the Institute and the Athletic Board.

These men have complete control of athletic policy of Technology. Any student who wishes to participate in athletic events must become a member of the A.A. and be associated with the body in some way. M.I.T. Nautical Association Is Well Known In Yachting Circles

Flying from the starboard of the sailing position is the present of the M.I.T. Nautical Association, one of the best-known and most highly respected units in intercollegiate yachting circles. The Association comes into being after a motion, which may take place at the Oakley Country Club, after the continuation meeting among the alumni.

Great League

Since then, the Clover Boats have been interested together, with the sport in intercollegiate yachting. That is the Intercollegiate League, a greater interest team formed in the sport throughout the world. The Clover Boats, under the leadership of the Association, have thrived to be present number of 31.

The events of the Clover Boats, during their four years of existence, have been outstanding. Their intercollegiate races are held on the basis of award winners, and the times of Bissi, Haynes, and others have set the intercollegiate championship for the past three years.

Cline Ladder

The organization of the Association is simple in comparison with that of baseball bodies, and consists in a lack of detailed arrangement of the members attending to the meeting. The ladder is made up by any number of members, who, in turn, take the rank of each. These men have associated the Association as in a
