present Sloan Automotive Laboratory; he was prompted to make his new gift a dole to help Technology increase its services to the nation's programs of aircraft design and production.

New Faculty Members
Among the group of distinguished scientists who will join the staff of industrial engineering as a result of the Rockefeller Foundation grant are: Dr. A. Henri-Oppel, 1927 Nobel prize winner; Dr. Ernest K. Leuchtt, Royal Exposition winner; Dr. John R. Leuther, research professor of chemistry; Dr. Thomas, and Professor E. Newton Harvey, of Princeton University.

Dr. Compton also reported that during the year, $70,000 had been re-ceived to defray and bequests. Notable in this list was the gift of $10,000 from the Charles Norton Foundation for scholarships; $14,541 additional to the Thomas Francis Jr. fund, and $44,550 from the Alfred P. Sloan Foundation for postgraduate fellowships in biological administration.

The class of 1923 has voted a special gift of $10,000 to provide a garden wall in front of the Alumni Swimming Pool, which was to be omitted from the present construction through lack of funds.

Trackmen Show Up Well
In Intercollegiates
Four varsity trackmen scored in the New England A.A.A. Champion-ships at Springfield May 26th, and turned in creditable performances at the Intercollegiate Championships at Harvard last Friday and Saturday.

At Springfield Lewis T. Jester, '41, and he'll be second only to New England champion Ed Day and champion Ken Cunyn in the 200- yard hurdles; Judson C. Rhode, '40, tied for second in the high jump. E. Dan Crosby, '40, was fifth in the 220-yard dash; and Richmond W. Wil-liams, '40, went out of the 720-yard dash for fourth place.

At Harvard Crosby was a good second in the mile, Rhode eighth in the mile, Wilson went out of the high jump at 6 ft. 11/2 in., and Foster lost his heat in the 220 low hurdles by inches in Friday's rain.
