Editor, The Tech

Dear Sirs:

The United States is using its best to further National defense, and the R.O.T.C. should be a great aid in this preparation. The advanced R.O.T.C. is already doing this in large numbers, and it is the first term that we have freshmen cadets, but the Freshman course remains, in my estimation, a woeful exhibition of what can be presented in such courses.

The Civil War marching taught us to be brave enough, not only for show, but to be used.ed and trained. In the first term, we have freshmen cadets, but the Freshman course remains, in my estimation, a woeful exhibition of what can be presented in such courses.
