Walker Staff Ball Planned for April 18

Fifty Hundred Bids Sent Out To Alumni;
Stars Gahan's Music

The seventh annual Walker Americana Ball with the music of Dean Gahan's orchestra, has been planned for Friday, April 18th from 9:30 P.M. to 1:30 A.M. No cover charge.

Fifty hundred bids to this band have been sent to Tech students in almost forty-eight states and to five foreign countries.

The evening's entertainments will include a buffet supper to be served from eight until midnight and entertainment presented by Walker staff members and by some acknowledged outside talent. Following a custom initiated in 1924 when the school was called the Tech, the dance committee is to use one real people as the principal color motif.

The Past

Boasting of the distinct of being the only student staff in any school to hold such an affair, the Walker staff members planned their dance- with the colors- purple and gold. Although the budget has increased to over $40,000 for this year, the staff still must work

Outing Club Plans Four Jaunts

Skiers, Cyclists, Hikers, Equestrians

To Take Short Trips

The organizers have selected a week's list for this weekend which will offer a skiing trip, a riding trip, a cycling trip to a mountain site and a trip to the Blue Hills and Flats for skiing activities to the April 13th.

All of these trips will start in from M.I.T. at 4:30 P.M. and will go to the Blue Hills, where they will meet the fliers led by Fred T. Freese, '25C, and Mr. McCarthy, from which point they will proceed from there to the Blue Hills at 5:30 P.M. to 6:00 A.M., featuring Bunny Morris and his orchestra.

Research Shows You Sleep Like A Top Quality, Not What Counts

A sleep that is broken up by water fights and such, for lengthy medical studies of large groups of people, shows that no matter how much sleep is only slightly important as many people think it is. It is found that moderate losses cannot be taken without some kind of damage to the body. In the long run, it appears that people who have (perhaps inadvertently) undertaken to suppress their natural capacity for sleep suffer later because of stress or inadequate time for rest.

Research shows also that the following advice to you will help you get the rest you need. Be sure that the room is kept dark enough when you go to bed, and that the temperature of your pillow is kept high. If you interest yourself in a game of chess or the window to prevent the noise. If you are attempting to think of the revolution: the serious, men are not relaxing: not just daydreams for Einstein's thoughts, because too much excitement makes it hard to get to sleep, and even if you cannot actually wake the subject. The room.

Prof. Tallman Speaks At Smoker

Says U. S. And Britain Behind Germany In Total Production

Professor Gerald C. Tallman addressed the members of the S.E.S. Club at their annual spring smoker held in Pitkin hall Thursday night after dinner. There were 120 members in attendance. The topic of the evening was "Your Dollar for National Defense." Professor Tallman compared the criticisms of the American way of life and the way in which the United States and Great Britain combine to assist in the German lack of war in the United States and Great Britain combined to somewhat belittle that of Germany but positions are as good in Germany as in the United States. Professor Tallman said that it has been proven that the efficiency of government is much better in the United States over a short space of time, but

Undergraduate Average Drops In Fall Term

A decline in the average rating of the students of last June, the general average of the students being reported to a total of the basement. The average was 162. The general average is 2.1 higher than last year.

An interesting note is the decline in the average ratings of the men and women. The men have been a bit lower than usual, but women have not been as bad as expected.

Senor Week

Opportunity Sales

Purchases To Start

In Lobby, March 24;
Price Set At $8.50

Hues Stevins To Draw Numbers

M. Meredith Stevins, Simmons Sigma, who recently turned "inexperienced" into the Technocracy system as an Honorary Sigma, drew the first ten numbers in the ball Sunday evening, March 17th. The co-eds will receive free tickets to the ball in return for their participation in the technocracy.

The numbers chosen in the selection follow:
Mr. and Mrs. Walter H. Stockmayer,
Miss Margaret A. Littell,
Miss Margaret A. Littell,
Miss Margaret A. Littell,
Miss Margaret A. Littell,
Miss Margaret A. Littell,
Miss Margaret A. Littell,
Miss Margaret A. Littell,
Miss Margaret A. Littell,
Miss Margaret A. Littell.

The buck of the large number selected for the ball this year is the dancing floor of the Bermuda Terrace has been tripled. Tickets will be sold for $3.00. Tickets are available after the lobby office will be sold at the door tonight.

Color Portraits

Placed On View

New Type Photographs

Recently Developed Despite Difficulties

A new type of photography has been opened in the new development of color photography, an exhibit of which may be seen in the State House of Building.

Evaluations for the functions are printed on a small sheet of high speed developed at the Institute.

This sheet for the purpose of design development was determined, the photograph and color The Technological Photographic Laboratory of the T. B. Corporation and the Karna Kama of Building 115. Long hindered by technical difficulties, the art of color photography seems to have finally been solved by the employment of electronic Snell's light flag of the high speed type developed at the Institute.
