"Managers’ Pool" May Be Used To Season Freshmen Tryin Out For M.I.T. A.A.

A new plan to augment freshmen with experienced duties and abilities in the M.I.T. AA is one of the big points in the plan the A.A. Executive Committee adopted last Thursday. It was brought to theFrank McCurdy, new President.

As suggested by the retiring Executive Committee, fresh-somen will circulate freshmen from department to department. In this, and within the chance to observe one another, freshmen will gain broader experience in the A.A. and will become more aware of the group’s interdependence.

Executive Committee

The Executive Committee are also interested in seeing that all ath-letics supplied by the intragroups are used to the greatest extent as intercollegiate as well as for Varsity athletic purposes.

"During the past, some undergrades have felt that facilities have not been utilized to the fullest extent for the benefit of the present class of undergrades generously as by the new Executive Committee in the hopes of remedying the situation," Hoefly said.

For Greater Coordination

Greater coordination between intramural sports and the regular program of varsity athletics is at the heart of the new Executive Committee’s plan. The purpose of this is to give the Freshmen more freedom of choice in what they want to participate in.
