Dr. Hauser visualizes the possibility of such monoliths of latex, free of all contamination, being used in the manufacture of synthetic rubber. Though the trip will be paid for by the students, many quotas have been established, with one quota being set for members of the United States and Canada, who desire to spend an additional slumber week in the Institute, rendering the trip more economical for them.

Richard Buras To Head Catholic Church Next Year

(Boston, August 29th)--Boston authorities announced today that the Rev. Richard Buras, 32, will be selected to lead the diocese of the new church in the United States and Canada, succeeding the late Bishop John. T. O'Connor, the retiring bishop of the Boston diocese. The appointment of Rev. Buras was announced by the Rev. Thomas M. Reynolds, 54, a member of the advisory committee of the United States bishops' conference. Reynolds, who is the national secretary of the conference, will chair the meeting.

Glee Club Will Present Final Concert At Pops

The final concert of the season of the M.I.T. Glee Club will present six numbers at the Tech on Thursday, June 2nd, at 8:30 P.M., in Symphony Hall. About the group are urged to give the concerts in the orchestra celebration. The theme of the performance may be selected from the T.G.A. office or from the information bureau, Room 701.

M. I. T. Flying Cadet Unit To Be Formed; Will Tour For 30 Weeks

Lt. John Lyons Is To Describe Plan In 1-90

On Wednesday

M.I.T. Flying Cadet Unit of the Army Air Corps was inaugurated Thursday, after a period of training in association with the Institute by the Army Air Corps. It was inaugurated Thursday, after a period of training in association with the Institute by the Army Air Corps. It is scheduled to begin its missions at the Institute's Wallis Field in the next few weeks, under the direction of the Air Corps. The unit will be under the command of Maj. John F. Tyrrell, 43, and John F. Karstrom, 43, who have been selected to lead the unit. The unit will be equipped with a variety of aircraft, including trainers and fighters, and will be used for both training and demonstration purposes.

To Pay Living Cost

To meet the urgent need for men and women trained in this important field, a program in public health education is being planned for the fall. The program will be open to all students and training will be given in the Department of Biology and Public Health, with the aim of preparing people for public health practice. The program will be offered to all students, and training will be given in the Department of Biology and Public Health, with the aim of preparing people for public health practice.
