Slater, Hardy Evans To Speak
To Physicists
New Policies, Plans
To Be Announced
On Wednesday
The new M.I.T. Physical Society is going to hold its first meeting of the season this Wednesday, October 15, at 5:00 P.M. in Room 4-120. At this meeting professors Slater, Hardy and Evans will each give a short talk on “Waves in Physics”, showing the halls open to the physicist and also showing something of the romance of physics.
At this meeting a very important announcement vitally concerning every member of the society will be made which was announced by those in charge.
After the meeting refreshments will be served free to all in the Moore Room.
Society Is Changed
The Physical Society has radically changed from the type of society it has been in past years. On Wednesday its policies and new plans for the coming season will be announced.
Many have commented on the latest rules, the members of the society have been seen wearing. This is but one of the innovations the society has adopted this year.
The first meeting is open to all.
Those new, especially those in Course VI, should attend.
Patricia Compton of Dallas, Texas, member of America’s premier college girls

The Tech Needs
Student Salesmen
Sailors are needed to sell The Tech in the main lobby from 11 to 2 on Tuesdays, and 1 to 2 on Fridays.
Salesmen are needed in Walker from 12 to 2 on both Tuesdays and Fridays. This is an opportunity for a fellow with a spare hour to earn some spending.
Anyone interested in the selling line should see John W. McDougal, Jr., at The Tech Smoker, this afternoon at five o’clock in Pritchett Hall or may phone him at 68 773.

Frosh Dance
Is Success
The Frosh-Simmons organization dance last Friday can be credited as a successful opener in the dormitory of the Froshmen Dance Committee. Music was of the very best native and the entertainment most amusing.
The committee made a very lucky find in Bert Hugo, who supplied the punch.
The entertainment, however, was unitive. Hosts and personal ability were exhibited on the platform by Messiaens Gene Schnell and Ben Eisen.
A general diagnosis was led by the expenses numerous George C. Mardalis. A grand march which facilitated the sitting was another added novelty.
