Nine months after arriving in the
Can History Repeat Itself?

As yet no applications will be formally inducted
into Gridiron. As yet no

postponed for one week, because of
the present Emergency corps will turn
on the campus in case of any

hearals in order to be able to direct

Group II consists of those who live
other students.

If, however, he has to resort to

the "war fever". Seniors were

attacked for their "war fever.

Strongly urges that they remain at the Institute and complete their

records are clear at the time of the declaration of war, upon enter-

their courses and fit themselves to become technical experts or

outlier entirely impossible.

On April 27, 1917, the following resolution was adopted by the

faculty: "In order that its Seniors may be available for Military and

Civil service, it is voted that the candidates for graduation whose

records are clear at the time of the declaration of war, upon enter-

ing the service of the Country, be exempt from further exercises of

the term and be at once recommended for a degree.

"With regard to students below the fourth year class, the Faculty

strongly urges that they remain at the Institute and complete their

table training; it believes that, for these, this is the most effec-

tive kind of national service that they can perform.

Many Trivialities
Make For Reality
Of Present Crisis

The 18th of April of the year (175)
—the day, you say, of the slot
round world, and that's
about all. History's perspective
drives all else out of, but
when one considers December
18, 1941, the day most
means more than the begin-
ning of a final war. To us contemporaries, it means a
bott ofHint things unseen.
For example, Sunday afternoon
now Institute Sophomores deduce
free from all thoughts of

Surprise Promise
For Xmas Affair

Mystery reigned over the plans for
Technology's annual Christmas
dance. According to Gregory O.
Magoun, chairman of the dance
committee, something usually new
and suprisingly wonderful will
happen at the affair which is due
to take place in Walker Memorial
from 9 P.M. until 1 A.M. on Friday,
December 12.
Not so mysterious is the spread
of mistletoe which will permeate
every convenient nook and corner of the
dance floor, of Tyler, Litchfield, and
Franklin.
There will also be a fireplace with a real woodfire in
each lounge. If any information on what steps would

Flight Training Suspended Here

Flight Training Suspended Here

War Order Is First
Institute

By Fernstrom

Professor Richard H. Smith, of
the department of Aeronautical
Engineering, announced yesterday
that he had received a communica-
tion from the Secretary of the
Civil Aeronautics Administra-
tion ordering the suspension of
flight training under the Civil
Pilot Training Program. This

may be made in the serenological
course, however, the fact that
the department was already carry-
ning a capacity of only 40 per-
cent has made it impossible for
the Institute to train a part of
the required number of pilots
anywhere in the United States.

The suspension of C.P.T.

is probably temporary, national
government inspectors have checked
the Institute and found it

under government training. Ground
crew will continue as usual.

When questions concerning
changes which might be made in
the aeronautical engineering
course, however, the fact that
the department was already carry-
ning a capacity of only 40 per-
cent has made it impossible for
