Magoon's Lecture
On Sex Problems
Presented Tuesday

Rather Than Formulas,
Good Method Essential
In Attacking Problem

The third lecture of Professor F. Alexander Magoun's series, entitled "Properus: Per Maritages," addressed to students in the men's dormitories, balanced the discussion on the various technical aspects of the war.

The third lecture, which is to be given on February 14 by Professor O. T. Copenhaver of the Naval Architectural Department, is entitled "The Art and Craft of Pottery." Professor Norton is recognized as one of the country's outstanding authorities on ceramics.

The second lecture of the series is to be given on January 11, when Professor Frederick N. Norton of the Chemistry Department will talk on "The Use of Good Method in Attacking Problems." 

Two days after the second lecture, on February 13, Professor W. H. Scabbar and Scabbard, of the Electrical Engineering Department, will give a lecture on "The Use of Good Method in Attacking Problems."

How to Practice Drill

Army Officers to Speak
Registration cards will also be issued to the approximately 1,000 students who are registered in the Military Training Department, and who are expected to attend the Drill and Cadet Corps. Those who are registered in the Military Training Department will be issued with registration cards and will be required to attend the Drill and Cadet Corps.

The bureau of investigation of the United States Navy has issued a list of the army officers who are to be employed in the military training department.

Chairmen's Committee
The chairman of the executive committee, Dr. C. H. McLean, has announced that the following army officers have been appointed as members of the executive committee:

General Manager, Jo Henry Hendren, Jr., 42, Commodore of the Institute. In present circumstances, the plan for the sale of De-
