In connection with the recently stored pistol parking regulation, the questionnaire was sent to all of the faculty inquiring where they usually parked in order to determine the preference for the movement of areas on campus.

As mentioned previously, in the restricted area where building 10 it was discovered that the parking situation was partially altered. Not only has it been discovered that there is a lack of parking, but there is also a lack of parking due to the restrictions on the number of vehicles allowed. A better distribution of cars would be desirable in order to ensure that all students have access to parking.

Annual T.E.N. Banquet To Be Held Friday
Mr. C. E. Smith, Vice-president of the Boston University Alumni Association, and Mr. M. B. Smith, President of the Greater Boston Intercollegiate Society, have announced that a T.E.N. banquet will be held on Friday, January 16, in the Faculty Lounge, on the premises of the Alumni Association. The banquet will be held at 3:00 P.M., Wednesday, in Room 7396, on the premises of the Alumni Association.

At the annual banquet the newest members of the Boston University Alumni Association will be announced. Members of the Boston University Alumni Association and all associates with the T.E.N. will be invited. The annual banquet will be held on Friday, January 16, in the Faculty Lounge, on the premises of the Alumni Association.

Professors H. B. Phillips To Address Math Society
Professor H. B. Phillips, of the Mathematics department, has been invited to speak at the joint meeting of the M.I.T. Mathematics department and the Greater Boston Intercollegiate Mathematics Society, to be held on Friday, January 16, in the Faculty Lounge, on the premises of the Alumni Association.

In his career at the Institute, Dr. Phillips has been in charge of food research and the distribution of foodstuffs in various parts of the world. The student body, and everyone interested in the subject is most welcome to attend.

Pistol Team Loses To Navy
The Technology Pistol team journeyed to Annapolis last Saturday to meet the Navy Pistol team, only to be defeated by the narrow margin of 36-30.

The Middle top gun was McCall, who shot 128 1-inch rounds at the Beaver's Alleninum. A pair of 28's by other Navy men rank Tech shooting. Captain Death frequently encountered by the Cardinal and Harvard, the Navy team's range is in a very limited range but a lack of experience in shooting is their downfall. It is expected that more matches of this type will be held, and the Cardinal will have the opportunity to improve its standing in the West.

First Aid Class - Changed Date, Jan. 27
Red Cross First Aid Classes for members of the staff and employees scheduled to begin in the week ending January 18, have been postponed to January 21 and 22.

Four classes of 40 each have already started, and registration is continuing. Inquiries in these classes will be handled by Dr. John S. Sprague, assistant to the medical director of the Institute's Medical Department.

Major Harwood Speaks At Graduate Dinner
Major Edward C. Harwood, an assistant professor of Military Science and Geography, will speak at the Graduate Dinner on Wednesday, January 14, in the Radcliffe Room of the Graduate House. His topic will be "The Peace Part in the Present World War." Following his address, the Institute Major Harwood was an active duty in various locations in the United States, and many possessions, including Hawaii. At present he is in charge of the Engineering unit of the R.T.C. at Technology.

T. E. N. Poll
A process of circulating the questionnaire and tabulating the responses resulted in the small and the 5-15 Club in order to obtain data drawn fairly from the students and technical groups at the Institute.

The questionnaire is intended to give the individual student how much he contributes to making the Tech, a college, doing assignments, reading, listening to music, sleeping, eating, and circulating around campus. The students having extra-curricular activities involved in the questionnaires were also asked to state how many hours he spends on extra-curricular activities. Other questions relate to extra-curricular activities, and the goals of the students. The results were tabulated at the Institute in preference to the data.

Valve of Poll
Commenting on the author of the poll, Dr. Comet says: "I believe that the survey may be really useful to those who are interested in the future of our institution. First, the student body themselves, and second the staff responsible for providing the information desired, must have a clear understanding of the results.

In his capacity as an assistant professor in the Department of Biology and Public Health at the University of Massachusetts, Dr. Turner is internationally known in the field of physiology, biochemical, and biophysical education. He is the author of "Principles of Human Nutrition," the first edition of which was published in 1914. He is a fellow of the American Association for the Advancement of Science, a member of the British Association for the Advancement of Science, and a fellow of the American Physiological Society, the National Academy of Sciences, and the American Academy of Arts and Sciences.

Dr. Turner is a member of the American Psychological Association, the American Society of Biological and Medical Education, Society of Experimental Biology and Medicine, Society for the Advancement of Science, and the American Psychological Association, and a member of the American Association for the Advancement of Science. In his capacity as an assistant professor in the Department of Biology and Public Health, Dr. Turner is in charge of the Institute's Medical Department, and is in charge of the Institute's Medical Department.

Dr. Schmitt
Dr. Schmitt is a member of the American Psychological Association, the American Society of Biological and Medical Education, Society of Experimental Biology and Medicine, Society for the Advancement of Science, and the American Psychological Association, and a member of the American Association for the Advancement of Science. In his capacity as an assistant professor in the Department of Biology and Public Health, Dr. Turner is in charge of the Institute's Medical Department, and is in charge of the Institute's Medical Department.
