Clinton C. Kemp, '43, was named president of the Tech Club Christian Association at the election meeting of the organization, held Tuesday evening in the Litchfield Lounges. At the same time the other officers of the T.C.A. and the manager of the boys' work division were chosen. Kemp is a member of Tau Beta Pi, honorary engineering society, is manager of the Squash Team, and was chairman of the T.C.A. drive this past year.

An age, it has been said, would not be time enough to do all that there is to be done on this earth. It would not, it seems, be time enough for all the courses that the Institute has to offer. Whether or not it would take it would it take 50+47 years for one man to take every course offered this past year, and the new totals, which during the past week, and verified with the new bulletin, the result, due to slight errors in the new bulletin, the large personal error factor, may mean that these figures are not at all two significant figures. Upon investigation it turned out that the bell work computation was done between the hours of 4:30 and 5:00 a.m., at a table in Walton's restau- rant, Brolley Square, and that the entire observation was done about the same time the following morning at a desk in Wood 402.
