Based on the assumptions that the interests now fighting for the successful conclusion of the war, and those who will point out the satisfactory plan of re-organizing, will endeavor to analyze the situation the world will face upon the completion of the war and their problems together, a blank for an eye to permanent peace.

Former Student At Tech Killed For Flying By air. Former student of the Institute from the father of Derrick T. Vail, formerly of the Class of 1912, was killed in an airplane accident occurring at an altitude of 100 feet on February 22, 1942. He was a former pilot with the rank of Sergeant in World War II. 

Three-Dimensional Photograph Exhibit To Be Given By Professor Rule. Three-Dimensional Photography, in which most spectacular applications of three-dimensional photography will be the subject of the last of the season's Society of Arts Popular Sections. The presentation will be given by Professor John T. Rule, head of the Section of Graphics at the Institute, at 4:30 P.M. Tuesday, March 24, has been set for the President's Weekly Luncheon and Tea Dance. 

The physics of three-dimensional photography is the problem of producing on the retina by means of pictures substantially the same images in the same relations that would have been recorded in the brain by the eye, using as a reference the position of the camera lenses. To achieve this the pictures must not only bear the proper relationship to each other, but must be presented in such a way that a single eye sees only a picture intended for an eye to permanent peace.

Three-Junior Selected For University of Cincinnati. He joined the service early last year.
