our national effort.

### TAKE YOUR CUE FROM THE PRESIDENT

Today President Compton addressed a meeting of Institute staff and students and explained to them the means by which Technology men could be deferred until graduation under the intensified, more stringent rules that have been recently devised to decrease the number of draft deferees and swell the armed forces of the nation. At the same time, he complimented the student body for the spirit with which it has accepted the responsibility that was thrust upon it by the fascism of December 7, a spirit which faculty members have detected in the increased industry and conscientiousness with which the students have performed their vitally important duties.

To this we would like to add both our congratulations and a warning that, with the tightened deferment rulings and the nation’s alarming need for technically-trained men, the significance of the engineering student’s part in America’s war effort has grown considerably. He must carry on in his present seemingly unimportant capacity with more painstaking diligence than in the past. A potential technical expert, who lets things slide in the usual collegiate manner, may easily find himself too low in his studies to qualify for a draft deferment. Or he may manage to exceed the necessary grades for deferment but still find himself incapable of doing the job of an expert engineer. Either way America loses a valuable man, one that can not be replaced without loss of precious time. A student who works with zeal and perseverance, on the other hand serves the country where she needs him most.

### EXAMINATION SCHEDULE

**SATURDAY, MAY 23—9 A.M.**

129 Stod. Inst. Mech. 3:43

137 E. Pol. Scie. 3:43

152 A. 100- 4:15

154 A. 101 - 4:15

156 A. 102 - 4:15

184 A. 104 - 4:15

**MONDAY, MAY 25—8 A.M.**

141 B. 103 Inst. Chem. 4:15

213 B. 109 Elec. Eng. 4:15

273 B. 111 Inst. Chem. 4:15

**TUESDAY, MAY 26—9 A.M.**

161 C. 101 Elec. Eng. 4:15

181 C. 102 Inst. Chem. 4:15

340 C. 103 Elec. Eng. 4:15

### TCA Boys Work

Donates $1,000

For Benefit of Poor

For the fourth successive year the T.C.A. Boys Work Division of the T.C.A. is donating $1,000 to the settlement

in Greater Boston, the money to be used to send in poor children to the Boys Work program. Each

year the $1000 is to be divided among twenty houses. The money will be given to the houses which Tech

college men have carried out a part of the educational program each year.

Needless to say we are all impressed with the

of the boys’ work program. Each

have divided them among

Boys Work program. Each

is donating $1000 to settlement
