Sensiors Asked To Criticize First Summer

Student-Faculty Committee Desires Constructive Hints

In an effort to improve on the wartime summer session program of the Institute, the Student-Faculty Committee has asked all seniors and junior members affected by the program to submit to the committee for discussion any faults that become evident in the program.

Any and all criticism of the program, in whatever guise it may be, should be submitted to some member of the committee as soon as possible. A meeting of the committee will be held in the Administration Building early in the summer, and all suggestions of weaknesses or reaction to the summer program was brought up it was decided that the report would be completed and the results of the whole had a chance to crystallize.

Undergraduate members of the class of 1946, who should be submitted are: John E. Gardner, '43, chairman; Warren E. Bergeron, '43; Robert S. Berte, '42; George A. Brattle, '44; and Dean Piel, '44.

### Options On Sale For Senior Week

**To Be Offered At $5.00 On Registration Day**

- **Dorm Freshmen Room To Be Placed Two In A Room**

### The Tech Smoker First Of Series

First of the annual long drawn series of smokers, designed to entice the members of the freshman class away from their books and into the array of campus characters.

### Placement Office Reviews Status Of Reserve Units

Although a joint committee from the Army, Navy, Marine Corps, and the Army and Navy Air Forces are to come to the Institute this fall to explain the general procedures of the various services to Technology men, the Placement Office has received a report of the recent survey made by this committee. The Placement Office will keep all interested in one of these programs should communicate with the Placement Office as soon as possible.

### Voo Doo Reveals Major Changes Due

Phosphorous, Voo Doo's mighty monster wire hasn't been stuck in a day in years. But the major operational failure for the largest freshman class ever in the history of the Institute. The Committee on Improvements featured an influx of new ideas, brought upon by the summer session. An all out effort to make contacts with particular situations which seem to need improvement, and I can give assurance that suggestions or recommendations coming from this committee will be welcomed, seriously considered and, if deemed advantageous and feasible, implemented by appropriate bodies.

### Walker To Resume Catera Serving

Dinner Service Faces Too Many Customers For Present System

Faced with an unprecedented increase in the number of students dining in the dormitories, the concentrated activities of the unloading work on laborers, and the possibilility of an influx of service men taking special courses at the Institute, the abondonment of the club service is only temporary, it was explained by The Committee on Undergraduate Life, and it will be reformed after the war along with a number of other innovations planned for that time.

### T. C. A. Is To Act As Rushing Center

The operation was carried out by the Fraternity Conferences and the various Institute faculties, the Student-Faculty Committee acting as a rushing center this fall. The purpose of this step is to enable the students of the Class of 1946 who desire to make contacts with particular fraternities. Representations from the I.F.C. will see that this privilege is shared by all and not abused.
