CHI PHI FRATERNITY

SPENDS $1,500 FOR BONDS

The most important purchases of bonds yet reported by any group at the Institute was the purchase of two $100 bonds by the Chi Phi house recently. Every member of the house movement was started last spring by the Lambda Chi Alpha purchase of $50 bond, and it is expected that many other organizations will follow this example as soon as the cost of living as well as the price of bonds are still in their favor. Interest is over. In another drive the Chi Phi's found several obsolete battered books. which they promptly plotted with paper as to the metal for the war effort and similarly donated.
