For Material Conservation

Profs. Dawes establishes Depots

Scrap and Salvage Containers

Strategically Located On Campus

As Students, Departments Help

In line with the nation’s effort to raise 50 million tons of scrap metal, up to 3 million tons of scrap must be paid down for the various projects. In order to keep the steel furnaces producing to beat the axis, the Institute, with the cooperation of the various departments, set up a series of scrap and salvage depots on the campus grounds.

Under the plan, students could enlist as provisional experts in specialties such as B-7 (P), A-9 (P) etc. It was made an obligation that most of the men from the Institute have the proper equipment for specialist work.

The program has two main divisions: V-7 (G) which is for general service and V-4 (P) which is for the type of work required.

The freshmen are not included in any of the reserve programs. An interested student would have to make a written request to the Freshman Advisor for a meeting to be held at 9 A.M., Saturday, Oct. 3 at the Main Lobby of Building 10.

This informal dance which combines the rhythms and syncopation of swing via waltzes and the highest, $7.70 and an informal dance on Saturday morning be furnished by Sam Donahue, with his sweet sax, whose band has been signed by the I.F.C. committee is at a loss in preparing suggestions for activities during the coming weekend. This ballot is open to the type of weekend to be had on campus. It will not be reopened.

The voter a wide selection for his privilege to decide the type of weekend to be had on campus. It will not be reopened. This ballot is open to the type of weekend to be had on campus. It will not be reopened. The voter a wide selection for his privilege to decide the type of weekend to be had on campus. It will not be reopened.
