ALL TECH WILL SING

The revival of an old Technology tradition has gained further momentum with the second consecutive staging of the All-Tech Sing sponsored on Friday, December 4, by the Beaver Services Union. After a long absence, the event was the silver cup, donated by a faculty member of their Advisory Committee, to the winning group, the Beaton Society is continuing the custom it renewed last year after a lapse of five years.

The All-Tech Sing in years past was always regarded as one of the major events of the year and was held at one of the major class dances. It served several functions then as it should now. In the first place it promoted an interest in music which is beneficial to a collegiate group, in the second it gave the different groups a chance to show off their talents in singing their own songs, and in the third it was one competition in which all groups could participate upon a comparatively equal basis. In addition to the singing competition, the society is again holding a dance afterward so that the spectators and contestants can enjoy the entertainment.

No still rules and regulations have been formulated so that the form of the competing team and its selection of songs are entirely left to the discretion of the individuals. Each arrangement and novelty can easily have its place along with school, fraternity, and other songs. The selection can be, as it has been in the past, either all songs, a combination of songs, or a series of numbers. The arrangements of numbers and songs can vary from the simplest to the most elaborate. The majority of Radical, The Tech has been organizing its activities of the year and the students are interested. The most difficult part of the plan is to get the largest number of members to sign up and the second to secure the required energy to carry out the plan.

Where DID THE BEAVER GO?

Every year the Beaver Club faces the problem of finding a suitable project for its initiates to undertake. This year the task becomes even more vital as the very name of the honorary society brings to the attention of the student body that Technology has a major class dances. It served several functions then as it should now.
