Six Matches Left
In Final Round Of Beaver Games

With but six games left to play, the only teams that are undefeated in the Beaver Key Round Robin Football tourney are Sigma Chi, Alpha Eta Rho, and B.A.E. The schedule is as follows:

Sunday, November 22
Sigma Chi vs. Theta Chi
Senior A vs. Senior B

Saturday, November 28
Sigma Chi vs. Theta Chi
Senior B vs. Sigma Chi A

Basketball Team
Starts Practice
For Harvard Game

Last Year's Lieutenant Martin H. Miller, Dolan
Return To Team

The Tech basketball teams have started practice work this fall for the games with Harvard, which will be played on Friday, December 4. Some internmen from the football teams are giving the team a bit of extra practice, too. Miller was a splendid basketball player and was the leading scorer for his team in 1941. He has returned to the team this year to help lead it to victory.

Munich Wins 128 lb. Class
In the finals of the 128 pound class, Munich defeated Pullard by a single point after the fall. Pullard was closely contested with the fall coming quickly after 1 minute and 18 seconds of the second period.

The 136 pound final match between Lyle H. Price and Lowman was a good example of the kind of wrestling performed during the day. The first period was fast and clever, Treff had a nice advantage early in the second and finally Price made a two point reverse to win.

The 145 pound class was a grueling match between Knapp and Van Buren, who put on a splendid performance for the crowd. The entire match was fast and intense, with Knapp emerging victorious by one point over Van Buren.

MIT Outing Club
Elec Officers

A feature of the annual elections meeting of the O outing Club, held last week in Room 109 on Wednesday evening, was the showing of a film on skiing. The film, part of an annual plan to provide an evening of pure entertainment, was made by the Tech Ski Club. The ski team is composed of the highest number of points and will be totalled for the full team total. In addition, the team with the highest number of points will be the winner.

The rodeo is to have six games as follows: 100 yard dash, 440 yard dash, 440 yard run, stand, pearing, and javelin throw. An approximate forty volunteer riders will be divided into two or four teams which will be pitted against each other.

Informal entertainment for the evening will be provided by the ski club. The games will be played on the ice and the audience will be entertained by the cheerleaders and the bands.

The meeting this evening will be held in the Tech gymnasium.
