Vu'S WHO

On this page Vu presents the Guess Who's Who or some of the people who make Tech tick. Your photographer, armed with a Brownie, a white sheet, and lots of nerve, meandered around the Institute and used thirty-three valuable man-hours in encouraging these Tech personalities to pose. Everyone should be able to identify these silhouettes. If you don't know more than eight of them it is a cinch they don't know you.

Don't turn to page 22 until you've really tried.
