The Tech

February 9, 1943

McNeil's Speech

Do you know whom we are talking about? The Tech offers an excellent opportunity for Freshmen and members of all classes to meet the people who run Technology. By getting stories from them are brought into personal contact with both professors and members of the administration. A chance is also offered to meet the leading undergraduates.

For further information apply at room 3 of Walker Memorial after 5:00 P.M. any Monday or Thursday.

Who's Who in Boston?

The Advertising Department of The Tech offers an opportunity for all students to meet the business people of Boston. These contacts have often proved very useful in later life. For complete information about this Department, apply room 309 Walker Memorial any weekday afternoon.

Announcements of the Massachusetts Institute of Technology:

An M.I.T. البلد is a world in which peace and freedom are the order of the day, a world in which aggression and domination are anachronisms.

Recent news from the rest of the world has been encouraging. We have heard of a great victory in the battle of Omaha Beach in Normandy, of the meeting in North Africa of the leaders of the United Nations who formed the Allied Nations, of the signing of the peace treaty between Japan and the United Nations.

We all admire the courage of the two great leaders who fought so valiantly in Europe, in a place that was enemy territory only a few weeks ago, for the freedom of the peoples of the world. We congratulate the governments of the years of the past to the freedom of the peoples of the world. We congratulate the governments of the years of the past to the peace and hope of the future.

We are all aware that, despite the progress that has been made, there is still much work to be done. But we are confident that, with the help of the American people, we will be able to reach our goal of world peace.
