Activities Notes

East-West Assoc.

Taking the first step towards becoming a duly recognized society, the M.I.T. East-West Association, which has been in the process of organization during the past year, will hold its first official business meeting at 4:15 P.M., Thursday, in the evening in the Dutch Room of the Graduate House. At this time the society's constitution and by-laws will be discussed and adopted upon approval of those in attendance.

Debating Society

On Wednesday, March 31, at 8 P.M., the M.I.T. Debating Society will hold its important organizational meeting in Litchefield Lounge, and all those interested are strongly urged to attend. Some very important announcements will be made by the Managing Board.

Continuing its active schedule of debating, this organization will soon come in for a certain amount of attention from the Tech. The meeting of the fraternity on Tuesday, March 23, at 8 P.M., in Litchfield Lounge, was well attended and well received, and has been asked to play a part in the inter-collegiate competition.

A recent organizational meeting of the fraternity decided, among other things, that the T.C.A. would not be able to have its regularly scheduled meetings in the Dutch Room anymore, and that they would instead have them in Browne Auditorium, the Tech. That the T.C.A. is not to have the Dutch Room anymore is a big problem in itself. We have reference to the college students who have become members of the East-West Association, and the Reserve Officers Training Corps. We are aware of the secondary importance of our position, but the situation in regard to the E.R.C. and the R.O.T.C. has been and continues to be something totally different from the problem in the East-West Association.

No news has been forthcoming with respect to these students although such news is generally considered long overdue. For this reason we are taking the liberty of assuming that the official attitude on college students is still in a state of flux and further study is needed before a definite policy is crystallized. This may be the reason for the conference of college teams to be held next Wednesday in Washington, and if such is the case, we may hope for definite action in the near future.

It appears that many of the students in question have been pressed into service, and that the policy of the various organizations has been to give the students the chance to serve in the war effort as a whole but nevertheless we feel that our contribution should not be allowed to be disregarded. Give us the objective and you may be sure it will be attained.

R.O.T.C. Promotions

(Continued from Page 1)

went to the Coast Artillery Corps which had 26 men appointed. The Coast Artillery Department had 26 men chosen as opposed to 34 by the Corps of Engineers, 12 by the Navy, 3 by the Marine Corps and 6 by the Chemical Warfare Service.

The Commander will be commissioned by Captains Wayne K. Miller, 43, and J. A. W. Pedersen, 43, and Robert B. Metz, 43, on Monday, Wednesday, Thursday, and Friday, respectively.

Appointments to the Treasury companies on Monday, Wednesday and Friday are as follows:

This may be the reason for the conference of college deans to be held next Tuesday. The official attitude on college students is still in a state of flux and the R.O.T.C. has become muddled and confused because no one should notify Robert A. Schwartz, 45, at 610 Channing, for the purpose of organizing groups of ten men to be sworn in at their convenience before Monday night.

Marrage Licenses

(Continued from Page 1)

1) The last Tuesday Dr. Harold D. Wells was to speak, but because of Dr. Janney's absence he gave the lecture at the meeting in the Dutch Room.

2) The second lecture by Frederick W. K. Krume was postponed to March 31.

3) The T.C.A. is sponsoring the lecture series through the Meetings Department. Robert P. Shafer, 45, is director.

4) The series started March 16 and will run for four weeks, until April 3.

5) The lectures are given on Monday at 8:00 in Room 2053, and on Wednesday and Thursday at 8:00.

6) About 800 people for the two lectures, the lectures are to be taken every day at 8:00 and 8:30.

As always, the lectures are open to everyone who may be interested.

The T.C.A. is sponsoring the lecture series through the Meetings Department. Robert P. Shafer, 45, is director.

E.R.C. Men Transfer

As the Navy now has the releases for R.O.T.C. men in its own hands, it was unable to attend. Dr. Janney was introduced at the first lecture by Gilbert K. Krume, 43, and at the second lecture by Frederick W. K. Krume, 43, who gave the lecture on last Tuesday at 8:00 in Room 2053.

The E.R.C. is the third class of the Aeronautic Engineering Student's Ground School, and the last lecture of the series dealt with the ground school in chapter 3 of the manual, and will deal with short flights. The E.R.C. is a prerequisite to flying in the society's glider.

Roksett Research Society

The Roksett Research Society will hold its regular weekly meeting next Tuesday at 5:00 P.M. in the Tyler Lounge. At this gathering the last meeting's topic, a discussion of the projects for the organization, is to be undertaken, and any other business will be considered.

T. C. & A. Conduits

Seventh Embassy

April 23 Set As Date For Annual Meeting

The Seventh Annual Tech. Embassy, conducted by the T.C.A., has been scheduled for April 23, and an organization will start Monday with the meeting of all the fraternity representatives, who have been chosen as Chief Ambassador. This group of students will be under the direction of Captain W. C. Kellogg, 43, as Chief Ambassador. The group of students will be under the direction of Captain W. C. Kellogg, 43, as Chief Ambassador. The group of students will be under the direction of Captain W. C. Kellogg, 43, as Chief Ambassador. The group of students will be under the direction of Captain W.
