I.F. C. Dance To Be Friday At Hotel Statler

Sponsor Three Parties At Fraternities To Complete Weekend

The annual I.F.C. dance is to be held on Friday night in the Statler Hotel from 8:30 to 12:30 midnight, and will have Sydney Lewis and Billa Fitzgerald and her orchestra playing with John L. Simmons and his band, who will supply the dance music.

According to Sydney Lewis, the Statler is going to be all dressed up for the evening. Students who have tickets for the dance will be able to get them at Alpha Epsilon Pi house, the Phi Sigma Kappa house, and the Delta house.

Although the chaperones and solved for the affair have not yet been announced, it is expected that a complete list of their names will be available by tomorrow. Sydney Lewis, according to Lewis, Mr. '44, has not as yet been decided as dance chairman of the I.F.C., but he will be, it is anticipated, that he will.

Mr. Lewis and his orchestra will be in the Statler on Friday night as invited. The guests will be able to purchase tickets at the door.

EXTRA

This is the EXTRA edition of Tech, published on Wednesday, April 7, 1943.

He began his orchestra career in the World War and has been well known around Boston, where he has been playing recently.

MI.

During the last week on the Fitch Bland studio, a large number of models representing inanimate objects of many shapes and sizes have been taken by Mr. Bland.

The exhibit was made up of many models on the scale of one-eighth inch to the foot, which were taken from the Peabody Museum in Salem, and the new Bedford Whaling Museum. The models go from early times up to 1916.

A.L.M.E. To Have Chowder Party

Second Of Year Will Be Held In Laboratory

Sponsored by the Boston Section of the American Institute of Mining and Metallurgical Engineers in conjunction with the Technology Student Metallurgical Society, this year's annual "chowder party" is to be held in the Insti- tute's Mine Engineering Laboratory on the second floor of Building 6, this evening.

Featuring New England claim meat is the model of a steak made by Mr. W. H. White Company for a window display in Window Shop of that store. This exhibit with the cooperation of the Navy Public Relations Office showed the evolution of the United States Navy.

The exhibit was made up of many models on the scale of one-eighth inch to the foot, which were taken from the Peabody Museum in Salem, and the new Bedford Whaling Museum. The models go from early times up to 1916.

As well as regular Naval ships, the exhibit included early vessels of similar fame in history. These include: Columbus, Santa Maria, an Ellen- bethian galley, Henry Hudson's Half Moon, the Mayflower, and the Santa Constanil, which brought Sir Walter Raleigh to America. It is estimated that these ships were under construction in the year 1510.

In addition to these large ships, Mr. Bland also photographed small ships also as Thames punts on the scale of one inch to the foot, which were placed in the same scale as the large ships.

There is also a row boat model also as Thames punts, which are built in the deck of the Russian ship "Georgii Bembre". The model is an item of one quarter inch to the foot.

Technique Sales

Continue; Pictures Must Be Finished

Those Junior women who have not yet had their picture taken for the 1944 Technique may still do, provided they make arrangements with the photographer by Friday, April 6, William B. Scott, '46, General Manager of Technique returned last night. Appointments can be made by getting in touch with the Cambridge office of the Institute Studios, located at 1000 Massa- chusetts Ave. The telephone number for this office is 7136.

Scott also requested those Juniors who have had their pictures taken to return the proofs to the Tech- nique office on the third floor of Walker Memorial as soon as possible. A secretary from the studio will be at the Institute this morning and every day this week to take orders for pictures and to make arrange- ments for publishing the pictures in the yearbook.

Advantages of the 1944 Tech- nique will continue to be held in the lobby of Building 1 of the Institute all this week. The line-up rules for the department are: 1) Freshmen and sophomores must be present; 2) no one can be present for more than one session; 3) no one can stay more than 30 minutes; 4) the name and number of the person must be given; 5) the name and number of the person must be given.

The Engineers, who offered the challenges, got off to a fast start despite the poor weather, and left the workmen without the services of Bob Mercy, star forward, and held onto a lead until the final whistle. In the coming week at 5:15 p.m., Captain Lewis will have left the Institute before the books are returned to those students who have had their pictures taken.

Atlantic To Hold Chowder Party

Chowder cooked right in the lab, representing a saving of $1.10 for Atlantic.

The exhibit was made up of many models on the scale of one-eighth inch to the foot, which were taken from the Peabody Museum in Salem, and the new Bedford Whaling Museum. The models go from early times up to 1916.
