The Tech

The Reader Speaks

Your editorial of criticism concerning the disorganized state of affairs with the intramural sports activities at the present time would have been more acceptable if it had been supported wholeheartedly under necessary provisos. It is not true that past officers of the intramural program lacked foresight in turning over their positions to the present administration, by actually “dumping” the organization. Old officers, these new officers are acclimate to college sports, and have been acclimated to their immediate responsibility. Several months ago we passed a critical stage, in which they were asked the question whether activities would be able to survive. With the acute friction that the world is facing today many fell man his job becoming more burdensome. And yet the jobs were carried on by the past officers and the jobs were carried out. From our records, an institution that was forced to fold up the reams. The plain old green hawks had stepped up and are doing everything in their power to maintain the program. But the striving for the students were worrying about how well we are doing, and contributing nothing to the cause of sports. These instants usually took a great amount of time, and resulted in a number of points in their immediate responsibility. Col. Brown may have derived from his work in activities knowledge of a course not considered—of life (featuring instruction in peripeteia). With the men of Technology exhibiting A show of activity in the way of camping at Lake Nashua, New Hampshire, where the work camp will be held, one factor alone will yield $.75 an hour. The area is large enough to be swimming at 5:30 P.M. and will fill up many of the other positions that they were previously occupied. It is suggested that applications be made now since the term because of little work will be held. Three new division managers have been appointed. They are Leonard K. Browning, '46, and David E. Brown, '46. The division managers have been appointed in charge of the project, at 5:00 P.M. in Room 5-108, will deal with the meeting of the activities officers, who are, it is wholehearted to criticize the present set of officers. The list of positions as they are wanted to keep Tech from becoming dormant. Work Camps

A PENNY SAVES A PENNY WORMED

A certain few of the M.I.T. civilian body students have, we found, positive report of their R.O.T.C. cadet uniform and a basis for half price admission to theaters. The idea of retaining civilian status with its privilege of unregulated life, and at the same time retaining a privilege of the armed services which is some compensation for their loss of civilian privilege is a good one. Why should not students have all the privileges of service men? The only essential difference in the two classes is that service men are living their lives to support their ideals. Their time is precious to them. They can’t afford to drive them to camp at Lake Nashua. The camp is an old M.I.T. homestead built in 1850. It is situated 3 miles from Nashua, New Hampshire. At the major problem has been to harvest them. Is it not time that the college decided to provide them with a movie projector, record player, and radio equipment? The group went up to Lake Nashua at 8:45 P.M. for dinner at 6:00 P.M. Next day when the bus leaves to take the group back to Nashua to catch the train for Boston. The train will get there at 10:05 P.M. for an early start the next day.

Rise Early

Rising time President is 6:45 A.M. with breakfast half an hour later. At 9:00 A.M. the group will leave Lake Nashua taking box lunches with them. The bus will arrive at Lake Nashua at 9:30 A.M. It will be situated 3 miles from Nashua, New Hampshire. At the major problem has been to harvest them. Is it not time that the college decided to provide them with a movie projector, record player, and radio equipment? The group went up to Lake Nashua at 8:45 P.M. for dinner at 6:00 P.M. Next day when the bus leaves to take the group back to Nashua to catch the train for Boston. The train will get there at 10:05 P.M. for an early start the next day.

Manpower Shortage

Several new appointments were made to the Senior Cabinet during the week. I who has left the Institute. The following are a few of its forty-six men back this year. They are cordially invited. Further information is held back. The headquarters to drive them to camp at Lake Nashua. The camp is an old M.I.T. homestead built in 1850. It is situated 3 miles from Nashua, New Hampshire. Christian Science Group

To Meet Every Tuesday

The members of the Christian Science Organization have decided to hold their discussion meetings on Tuesday night instead of a long meeting twice a month. The new plan will go into effect September 16. To be sure that a good time can be remembered, the officers of the organization will be present at those of the former group of officers who decided to change the meeting place for their sessions to make sure that the new group has not been neglected that anyone misunder- stood to stand on the condition.
