Outing Club Plans Three Trips Sunday Future Will Bring Square Dance For September 16

Next Sunday the Outing Club will hold three trips to various parts of the surrounding country. These trips, open to members, and to non-members after the payment of a fifty cents fee are a Bicycle Trip to Walden Pond, a rock climbing trip to Rattlesnake cliffs, and a canoe trip with Simmons.

The Bicycle Trip will start from the steps of the Walker Memorial and will journey to Walden Pond, near Concord, and return in the evening. Rainquakes are a bike and lunch, and sailing suit and camera as well as up for the ride. The Oouting Club bulletin board is posting the trip.

The group traveling to Rattlesnake Cliffs will leave at 9:00 A.M. by subway, bus. No climbing experience is necessary and the outfit consists of a required helmet, leathers, and shoes a box lunch. The club supplies ropes and other equipment and shows the notion the shoes are used.

The fact that Simmons is not far from campus has limited the size of the joint canoe trip to about five couples who will meet at the Bicycle Club information booth at 9:00 A.M. to journey to the upper reaches of the Charles River. The boys will have to provide lunches for themselves and the girls.

The incident attracted quite a large number of the naval students who were interested in the plight of their brothers in a Mississippi fronts. A large number of the naval students who were interested in the plight of their brothers in a Mississippi.

Army Truck (Continued from Page 1)

bell and socket joint that attaches the trailer, allowing the truck to travel without fixed wheels. After the trial, trucks, hooked by the severing of the air line, and the force of the break stopped it. The driver of the truck was only slightly injured by the impact. The next move of the trailer was driven in for about a third of its length, and the maximum of the vehicle had never existed. It remained under the sidewalk, where it rested on the severed coupling beam and the small wheel which was used to support it when not attached to a truck.

When the army command in Boston was informed of the accident it ordered that all its "tiny six" trucks, one specially fitted for wrecking work with a crane were made available. All had the winch of the "six by six" so that a damaged trailer and backing up, the winch was pulled back at the underpass and up to the street level. There the crane was lowered to the from the trailer, which was hoisted cleared of the ground, and the wreckage was landed to the Boston.

After the wrecking work was done a military Police Lieutenant and a sergeant came up in a car to see the town of the accident and to the Paint Metropolitan District Police there were already on the scene. They made inquiries of the affected and cleared out of harm. Traffic through the underpass was resumed after about three hours.

The incident attracted quite a large number of the naval students who were interested in the plight of their brothers in a Mississippi fronts. A large number of the naval students who were interested in the plight of their brothers in a Mississippi.

**Sigma Alpha Mu Family To Hold Dance**

With music supplied by the Tech Sinfonia, the Sigma Alpha Mu fraternity will open Tech's fall dances with a formal dance for the Fall Term Freshmen, the full-time student social event with very little of the formality of a "society" dance, to be held at the freshman house, 222 Babcock Street, tomorrow evening at 8:00 P.M.

Although it has been the practice in the past for each of the Tech Sinfonia groups to hold several concerts throughout the term, besides wartime travel restrictions, is the fact that many of the girls' colleges in and around Boston will not be open all year, rather, having many members "aloned" and "lone" as one of the last at night.

**DREAM BOOTH**

The booth will be designed to bring to the public and interested students the latest in the fields of lighting, music, photography, mechanical and biological work. The demonstration will enable the exhibitors to see the shop equipment and its uses.

**Future Will Bring Square Dance For September 16**
