Army Drives Navy Out of Inst’t Comm; Assumes Control of All Activities

Beer Bottle Barrage Laid Down As Schutte Dusts Lang Flowers

CAMBRIDGE, Nov. 11 (FF)—Atting of the Institute Committee at 5:15 this afternoon (on twenty-five minutes notice) in the room of the Senior House, all students and faculty heads who are in the Navy unit at the Graduate House were removed from the student body. The meeting was called to order by an army clique headed by George Schutte and Capt. Low Tyree.

Meeting was called to order by the at 5:15, and the regular order of business was immediately begun to permit the immediate admission of Fred Blatz as the representative, Lew Tyree as the representative of Oskosh, and Herman Harjes as the representative of Osceola. The Tech is on the Admiral’s flagship, so the Radio Society may be able to govern this country by force if necessary.

At this point Buchanan, soon to be recognized as M.I.T.A.A. representative, hammered on the door and was admitted. He announced that the civilian Inst. Comm. members had received their notices and were coming down the drive in ones and twos. It was decided to admit them, blind and gag them, and carry on with the next item on the agenda.

Navy Forced Out

Schutte then announced his intention to govern this country by force if necessary. In this connection it was moved that all heads of activities who held a seat on Inst. Comm. and who were in the Navy V-12 unit be immediately and henceforth barred from the committee.

A view of the throne that attended the laying of the cornerstone for Building 9, the new U.S.O. building, in the Great Court.

Plans call for a four-story building complete with basement and tunnels leading to the Graduate House, dorms, and the Charles River in case of a raid. The first floor will be completely devoted to a large ballroom and dance floor. The second floor will contain a library of sexy literature, a small movie theater, and one room marked “women” and another one marked “men.”

4th Floor Above 3rd

On the third floor there will be a reading and writing room, and a work shop. The fourth floor to top it all off will have several private rooms for the use of service men as they see fit.

It is planned to have hostesses come from Sargent for the muscle bound, Wellesley for the fussy, Emerson for the devil may care, Katy Gibbs for Course XV man, and Scollay Square for the VooDoo stuff.

Guard Organized

MacKintosh and Carmody armed with two empty bottles appointed masters-at-arms to prevent any interruptions of the meeting. The first item on the regular agenda was the change of the Institute committee meeting place to the room of the Senior House. It was much discussion on this subject, but it was finally decided unless Wilson Gilliat would relax the house rules in Walker Memorial to permit the use of hard punch at the regular bi-weekly meeting, the committee would have to carry out its resolve.

Before any more Navy students could reach the meeting place to prevent this action, the meeting was declared adjourned, and the captives beaten into unconsciousness.

It is reported from authoritative sources that Admiral Flowers and Commodore Jack Taf are gathering forces to overthrow this military dictatorship. A reporter from the Tech on the Admiral’s flagship “The U.S.S. M.I.T. Graduate House” and will keep you informed on the latest up-to-the-minute news on the strategy of these worthy sea-faring men.
