win over Gov. Domm, Monroe Bayres, and George Brown.

The late summer saw the Sophs and Juniors out in full force each day. Despite the war, this year's fields were utilized just as much, if not more, as before the war. The only time they were not used was when the football team was practicing on the ball field. In the relay, the Sophs had the edge over the Juniors. Dr. George Holley was the only Freshman present for the track meet. He put in one of the best efforts of the season, but was forced to retire because of his engagements with the medical corps. He also showed what might be possible with the right amount of training.

With the fall weather in the air, theSophs and Juniors turned cross-country, and as usual, a great many boys turned out, although the usual amount fell short of the full fall sport. The ensuing competition for the open relay resulted in the team proving to be very close.
