Technique Staff Needs Camera Men
Men are urgently needed for the 1945 Technique Photographic Staff to take pictures around the Insti-
tute, as well as to work in the darkroom involving developing and printing, it was announced last
night by Thomas H. Parsons, Jr., 5-45, Photographic editor of the yearbook. He advised that
much photographic work to be done in the next future, and that stu-
dents of all classes are eligible for positions as Technique
Photographer.

All the necessary equipment for both indoor and outdoor photography are available, and there also are
good darkroom facilities. Knowledge of photography
for Technique photographers need not have any previous
training, but will be trained by members of the
staff. Any student in interest should contact Farrow as
soon as possible.

continues to pursue the only ruling on the class of ship that it is
most unique in the American Navy.

The “Kitten” also had its far share of accidents, and the
most notorious of these was the.

April 21-1:30 P.M.

Professor Magoun Interview
(Continued from Page 1)
so that they will have a common
point of understanding.

Fundamental Problems
Professor Magoun remarks that there are just three fundamental
problems: (1) what is the equilibrium, (adaptation, (2) Choice of, and
preparation for, the right life path. The purposes of
the marriage lectures is to help the younger members of the
Technique “family” with the third
point.

The winter series of lectures will
deal with problems before marriage
and the spring series with problems after marriage. The winter series
will consist of talks on the following subjects, given following on
Tuesdays, January 18 and 25, and February 1 and 8:

(1) Mental Health
(2) Marital Problems
(3) Life Adjustment
(4) Matrimonial Problems

All will be given in the Biology
Hall with the times the
same as those for the first
lecture. The spring series has not yet been announced.

Professor Magoun has had a long
and varied experience in giving marria-
gle lectures. Besides his annual series at the Institute, he has
been invited to lecture at Stanford, Wel-
shire, Columbia, London, Troy,
University of California, Oregon State
University, University of Illinois, and Rensselaer. His
lectures have been completely revised and should be the
best ever, according to
Donald H. Halliburton, 16-44. Dis-
tinent of the Walker Memorial
Committee.

The present members of the com-
mitee are: Herbert F. Knapp, 6-44;
chairman; Donald P. Kahn, 6-44;
vice-chairman; Robert C. Landivar, 6-44; Robert H. Symmes, 6-44.

There are several other functions of the Walker Memorial Committee
which have not as yet been men-
tioned. This committee operates the point system at Tech, which limits
the number of photographs to a certain number of important positions.

The 1945-1946 schedule begins tomorrow, the fac-
ulty also are under the super-
vision of the Walker Memorial
Committee.
