Fraternity Findings
In the Spotlight

LENEXA CAMP
Recent elections at the Lenexa Club found George D. Gerbigel, 114, emerging as President in the fall quarter, with Kenneth W. Stahl, 14, serving as Secretary and Treasurer, and James S. Ham, 14, in charge of funds. The club is proud to report that twenty new members have been recommended to the lenexa Committee from the 114th-115th class. In addition, they have been recommended to the A.S.O. Committee.

Definite news about these deferments will be announced later. Those students whose names have been submitted to the National Selective Service for deferment do not yet have definite assurance that the student will be deferred. Those students whose names have not been included in the recommended group.

First, judging by the quotas already revealed for other colleges, the Institute quota will probably be about half of the present number. Those students whose applications for deferment have not been certain yet in Washington. Those students whose names have not been recommended will be notified.

To those students who will not be with us next term we wish them the best of luck in their future careers. We hope that they will always carry with them the best impression of the Terriers of Massachusetts over their shoulder.

ECONOMIES
The efficient Board of Directors for the next five years. They actually didn’t think it through, and at the end of the term blackboard will happen to notice that it is a ploy of various groups of political officials, and recognize it, it is off the hands of the people. That is why it is not a particular difficulty. But now, after all its adventures, the five-man Board of Directors is a well-placed board on the front door.

Activities Plan
Week of Smokers
"Open House" for Freshmen, V-12, Coeds
At a meeting of Technology student activities heads held at 3:50 p.m., Tuesday, February 18, in the Tech, a call was issued for a called Activity Open House during the third week of the term. This open house will be held for the purpose of getting new members. In addition to the recruiting of the incoming freshmen, we will have open house for the purpose of getting positive into student activities. This will be a day that will give the members of the class a chance to talk face-to-face with the present freshmen class another chance to see what is in store for them.

The freshmen may be appointed to an Activities Open House Committee. They are King Carey, 6-44, Walter Lewis, 6-44, and John C. McLaughlin, 6-44, representing the "A" classes; John W. Wilson, 6-45, representing the "B" classes; Charles W. Adams, 6-45, in as Secretary; and Frank W. Vlamis, 6-45, in as Treasurer.

The real feature of the exhibit was a display case of the various modes of transportation, including an actual "Fido" radio on loan to the Institute. The pictures show American service men of all types, and the bigger picture, which the freshmen may have a chance to see, is that in the future, every student will have a seat and discuss their problems with their instructors and their students.

"Another eye-stirring feature of the exhibit was the story about a boy and his dog. For the boy never got a chance to see the objective. The first thing he saw of the town of Maknassy was the radio, and shots of the actual engagement, including one by gunner John M. DeRosa, 2-46, who was a member of the 5:15 Club. If you will offer you a seat and discuss their problems with your instructors and students, you will have a seat and discuss their problems with your instructors and students.
