Outing Club Plans
Tech Cabin Trip
For This Weekend

Schedule Also Includes
I.O.C.A., Square Dance
Tomorrow Evening

Two big events—a Tech Cabin
trip and a Memorial Hall square-
dance—are planned by the Outing
Club for this weekend. The two
events coincide because of a change
in the club's schedule.

The weekend trip to the cabin,
with girls from Radcliffe, Simmons,
and, perhaps, Connecticut College,
will have as its chaperon Professor
F. Alexander Magoun. Buses will
leave for Tyngsborough, from which
the cabin is a nine-mile walk, from
the Park Square terminal at 10:20
P.M., or 3:30 P.M., check their bikes
in the Building 10 Lobby at the noon
sign-up lists are posted on the Build-
ing 10 bulletin board.

Square Dance Also Planned

Another of the popular I.O.C.A.
square dances will be held tomorrow
night from 8:00 P.M. to 11:30 P.M.
at the Harvard Memorial Hotel.
Tickets, at $.40, will be on sale today
in the club's schedule.

T.C.A. Has Copies of
Dean Prescott's Talk

A limited number of mimo-
graphed transcripts of "The
Religion of an Educated Man," the
talk given last week by Dean
Samuel C. Prescott at the eighth
Annual Tech Embassy, are now
available at the T.C.A. office.
The transcripts are free, but
since the supply is limited it is
suggested that those who would
like copies call for them as soon
as possible.

ASME Plans Talks
On Jet Propulsion
Prof. Keenan To Open
Series Next Thursday

The student branch of the Amer-
ican Society of Mechanical Engi-
neers will present a series of three
lectures by prominent members of
the Mechanical Engineering depart-
ments on the theory and applica-
tions of jet propulsion. The first
lecture in the series will be given
by Professor Joseph H. Keenan on
Thursday, May 11, at 5:00 P.M. in
Room 6-120. Professor Keenan will
speak on the theory of jet propul-
sion from a thermodynamic stand-
point.

On Wednesday, May 11, Professor
C. Richard Gooder will speak on
applications of jet propulsion in
industry, and on Thursday, May 25,
Professor C. Pavette Taylor will
speak on the applications of jet pro-
 pulsion to aircraft. All of the lec-
tures are open to anyone.

T.E.N. Celebrates
25th Anniversary

The Tech Engineering News an-
 niversary issue will come out in ap-
proximately two weeks. As its name
suggests, it is going to be a rather
special issue and many new features
and interesting articles are planned.

The cover contest which received
some publicity around school was
never won by anyone because ac-
cording to Curt R. Beck, 9-45, no
"suitable entries were received." Thus
the magazine staff had to design a cover by themselves.

Since this is going to be a mu-
 tiple issue not much news about it
can as yet be released, and the
nearly elected Managing Board is
rather tight-lipped about it.

L.F.G. Formal
(Concluded From Page 1)

professional enhancement of the
print will be given to the fraternity
the representatives. As was previously
announced the winning group will
receive a large framed portrait of
their entry.

The following are the chaperones
who will be present at the prom:
Mrs. K. T. Compton
Mr. and Mrs. James H. Kilkan
Professor and Mrs. Leicester P.
Hamilton
Professor and Mrs. John D. Mitchel
Professor Avery A. Ashdown
Mr. and Mrs. Ralph T. Jones
Major and Mrs. A. Wager Major
and Mrs. J. E. Raitoff
Lieutenant and Mrs. P. Curtis Con-
nell
Professor and Mrs. Raymond D.
Douglas
Professor and Mrs. Ralph G. Hurd.
