Munroe, Wood, Hayden Halls Reopen July 1

Plans To Reorganize Dormitory Committee Are Now Underway

Munroe, Hayden, and Wood halls of the undergraduates' dormitory unit, now occupied by cadets of the Aeronautical Science, will be opened to civilian undergraduates on July 1. It was announced early this week by Professor Leonard P. Hamilton, Chairman of the Dormitory Board. Cooks, maids, and Web- cot halls, which are now occupied by a mixed group of graduates and undergraduates, will remain open to civilians as Graduate Houses. Professor Hamilton also stated that plans are underway to recon- struct the Dormitory Committee or reconstitute a new group.

T.E.N. Banquet Will Commemorate 25th Anniversary

Special Issue Ready For Sale Next Tuesday

T.E.N. Banquet

At a banquet to be held next Mon- day evening at the Statler Hotel, Tech Engineering News will commemorate its twenty-fifth anniversary. The speaker for the occasion will be a former business manager of Voo Doe, today he is the associate secretary of the Christian Science Publishing Society and publisher of the Christian Science Monitor. Among those present will be Dr. C. L. Conwell, Dean Lobdell, James R. Walling, and Professor F. G. Fasset.

Story of the establishment of the Senior Class will also attend. A special issue of T.E.N. will be put on sale about the twenty- second of this month. One of the most interesting articles a "Biblio- graphy of Technology" by Professor Charles L. Foster; it covers the development of M.I.T. from its beginning to the present date. Other articles in the issue are: "This is M.I.T. -- Astra- nomical Engineering," "C.S.O. -- Sources of Scarcity," "Desert Dis- covey," "Fond Proaching Goes on War," "High Vassar," and a special anniversary feature, "After Twenty Five Years."

Homberg Infirmary Returns to Former Quarters in June

Professor Lawrence E. Anderson, Course IV, architect in charge of the work being done on the Hom- berg Infirmary, last night that the infirmary could move back into its renovated quarters sometime next month. He clearly indicated, however, that there were not all certain, but that he is hung upon the completion and installation of equipment which has been delayed because of the war. The infirmary, located temporarily in the Emma Rogers Room, 10-ME, was expected to be moved by the beginning of April. The new infirmary has been both expanded and modernized. Every room in the first and second floors has been remodeled. Rooms have changed their positions, corridors have been added, and even stair- cases have been built within Building 10. A new clinic has been formed on the first floor.

The incoming class will be some- what smaller than several previous entering classes, although it is expected to enter in the new fresh- men's joining of the Navy training program in July, but cancellations due to the war have been accepted for entrance in September. Assistant Director of Admis- sions, B. Anderson, is handling the reception and installation of new students. Each undergraduates, will remain open

NSO Talk Set For Thursday

Prof. Taylor To Finish Jet Propulsion Series

The third and last lecture of the current series on "Jet Propulsion," sponsored by the American Society of Mechanical Engineers, will be given on Thursday, May 18th, at 7:30 o'clock, in the Huntington Hall Room 302-A. At that time Professor C. F. Taylor, Professor of Mechanical Engineering, will speak on the applications of jet propulsion to land travel. The first two lectures of the se- ries were given on Thursday, May 11th, and Wednesday, May 17th, by Professor Joseph M. Konstan and C. Richard Redderber. Professor Kennedy’s lecture was given on Room 6120, which was the 19th anniversary feature, "After Twenty Five Years."

SPOLIS OF VICTORY

Track Coach Oscar Heusen escorted by Edward H. Bowden will present the trophy to the winner in Saturday’s track meet.

The Technology-voo Doo came Shifted To Brookline

So that Ken Scheid and Curt Jones won’t have to be carried so far back in the big house at the end of the afternoon, THE TECH-DOO dace baseball game (7) has been moved to Amory Field in Brookline.

The game will begin at 3:15. P. M., tomorrow and all bloodthirsty Tech- men are invited to come and see the cat’s gang get theirs.

One Only Record Broken

On the first day of classes, each of the first two classes had a full complement. One record was broken.
