Spring Fashions Being Displayed By New Fresh

If the New England weather is any indication, spring — glorious spring — will soon be omnipresent. Farmers will be planting their crops, and speaking of crops, there will seem to be a new crop of colorful pieces of cloth appearing on the campus. These rags (which undoubtedly they soon will be) are striped in cardinal red and silver grey, and according to fashion experts are supposed to be just the thing for the coming season. It is apparent, however, that only the new freshmen seem to believe in fashion experts. Why is this?

These few hardy souls have not realized that in following what fashion dictates and by purchasing their wardrobes from some Sophie-mores, who seemed rather eager to the point of aggressiveness to dispose of their wares, they have supplied the mighty Q Club with beer money otherwise unobtainable.

Anyways, freshmen, don’t let these little disturbances rock your faith in the fashion experts; you might find it wise to continue wearing your ties.

Enter K. of C. Games

This is the first time that a Tech relay team has captured as many intercollegiate championships and has won as many meets as the K. of C. team. They will compete for the New England championships which will be held in Madison Square Garden this coming season. It is apparent, according to fashion experts are supposed to be just the thing for the coming season. It is apparent, however, that only the new freshmen seem to believe in fashion experts.
