Spring Frolic Will Be Held Sat. April 7

Dormitories, 5:15 Club Will Sponsor Dance; Moulds' Band To Play

The annual Spring Frolic, which has been a war casualty since 1941, is to be revived this year; the date for the informal dance has been set for Saturday evening, April 7 from 8:00 P.M. to midnight. Sponsored jointly by the Dormitories and the 5:15 Club, the dance will be held in Walker's Morris Hall. Music will be supplied by Reuben Moulds and his orchestra. Tickets for the dance will be on sale from Thursday, March 22, to Friday, March 30, from 11:00 A.M. to 2:00 P.M. in the Building 10 Lobby. The price will be $2.40 per couple, tax included.

Dance Open To All

The dance which is open to all students of the Institute, will feature an elaborate show of spring flowers and greens in conjunction with tricky lighting effects. The decorations committee feels that the decorations will be even more effective than those at the Christmas dance. The whole of Walker Memorial Building has been reserved for the evening and all the lounges will be open.

Last J.P. Options To Sell Wednesday

The Junior Prom Committee has announced that a few remaining options for the Prom will be on sale in the Lobby of Building 10 next Wednesday, March 21, from 11:00 A.M. to 2:00 P.M. The options cost $3.60 including tax and must be redeemed by Friday, April 13. The total price of tickets for the Prom, which will be held on Friday, April 20, is $7.20, tax included.

Further plans for the dance, beyond the facts that it will be held on April 20 in the Imperial Ballroom of the Hotel Statler and commence at 8:00 P.M., have not as yet been announced. It is expected that the name of the orchestra (Continued on Page 2)

Technique To Be Sold In Bldg. 10 Next Week

The 1945 Technique will go on sale for the last time on Monday, Tuesday, and Wednesday of next week, from 11:00 A.M. to 2:00 P.M., in the Lobby of Building 10. During this period students may purchase the volume for $5.50 or may pick up volumes for which they have already paid. After Wednesday all those who have paid for copies, but who have not procured them, may get them at the Technique office, 308 Walker Memorial.

Exhibit On Steel Will Begin Monday In Building 10

The role of steel in the present war will be depicted in a photographic exhibit along the corridors of Building 10 which will appear on Monday, March 19. The seventy-odd photographs are being supplied by the United States Steel Corporation.

Mining of the ore, transportation, smelting, and the actual production of the basic ingots are shown. Various intricate operations on materials directly concerned with the war, such as ship armor and plate, large shell and bomb casings, gun parts and seamless pipe for oil pipelines are also included. Photographs on the vital business of research and testing on steel products complete the exhibit.

President Of '44 Killed In Action

Second Lieutenant George A. Schutte, permanent President of the Class of 2-44, was killed in action February 12, 1945, while serving with the First Army in Luxembourg. Lieutenant Schutte was a member of the Ordinance Department of the U. S. Army.

Schutte was a member of the Executive Committee of the Research Board for National Security, which has been created to serve after expiration of the present Office of Scientific Research and Development, of which Vannevar Bush, '16, is director, until a permanent agency to direct government research is established. The new board is composed of civilian and military scientists whose responsibility it will be to direct research for the development of weapons for any future war. Establishment of the new board was announced jointly by Secretary of War Stimson, Secretary of Navy Forrestal, and Frank E. Jewett, '03, President of the National Academy of Sciences. Meantime a Committee on Post-War Research has recommended that the government establish a permanent agency charged with the scientific developments of weapons of war.

The interim board, which will operate until the new agency is decided upon, will according to announced plans, be composed of 20 civilian officers, with an equal number of officers representing the Army and Navy. Members of the executive committee of the board, in addition to Dr. Compton, the chairman, are Roger Adams, department of Chemistry, University of Illinois; A. H. (Continued on Page 4)
