man about tech

...the man-about-tech thinks he has heard the prize political statement of the year. When shown the list of nominees for Senior Week Committee shortly before the elections a certain co-ed ex-senior, Charles, took an involuntary bath. A reputation as a Don Juan is also to have unusually high viscosity. The comment was that the water seemed to keep him from snoozing off. After a passionate embrace into the evening he slid from date (one of many) and as the day wound down he asked, "Why didn't you sleep too?" She replied, "Yes, to which he replied, "Yes, ma'am." The Fourth Estate and an ardent motorcyclist, was engaged in relating the report stated that it was the first time he had seen Cupid riding on a Harley-Davidson. It seems that he had offered to take a friend and his date back to her residence on the motorcycle. Since there was only room on the seat for two, the friend had to ride the rear fender. Before they left the driver cautioned his friend not to neck on the route, as it was his date's first ride and they had to pass through some heavy traffic. The way he tells it, the bike gave several suspicious lurches as they passed through Kenmore Square. Subsequent investigation revealed that the friend had been engaged in happy oscillation when they hit a projecting manhole cover. Both he and his date sorely felt the need of dental attention.

Testimonial Dinner
Held For Fassett

Publications Men Honor Advisory Council Head

In recognition of the many years of service which Professor Frederick G. Fassett, Jr., has given to the Institute, the four undergraduate publications of Technology held a testimonial dinner Wednesday, May 30, at the Fox and Hounds Club. Prof. Fassett is leaving his position as Chairman of the Advisory Council on Publications and Editor of the Technology Review to become Director of Publications and Relations for the Carnegie Institution of Washington.

The testimonial dinner was attended by members of both the present and the past managing boards of T.E.N. Technique, Voodoo, and The Tech, and a number of guests—Mr. James R. Killian, Executive Vice President of the Institute; Dean Harold E. Lobdell; Mr. Ralph T. Jones, Business Manager of the Technology Review; Mr. Stanley G. H. Fitch, 32; Member of Advisory Council; and Mr. Beverly Dudley, the new Editor of Technology Review who assumes his new duties today.

New Use Found
For Waste Sugar

The manufacture of a plastic molding compound from a waste product of sugar factories and the new use of sugar itself for the formation of plastics was revealed on Saturday, May 26, in a report to the members of the Sugar Research Foundation at the Institute. The report on "Sugar and Sugar By-products in the Plastics Industry" was prepared by Dr. Louis Long, a research associate in chemistry.

The report stated that a plastic molding, made from a waste product of sugar factories, has already been put into commercial production on a small scale in Louisiana.

Class Day Skit Tryouts
To Be Held Wednesday

Tryouts for the traditional Class Day Skit to be given on Class Day will be held Wednesday, June 6 at 5:00 in Room 2-190. Professor W. C. Green, of the English department, is to act as dramatist for the production. The skit will be presented on Class Day, June 10, in New England Mutual Hall at 2:00 P.M. Only seniors will be admitted to tryout for the cast.

Prof. Greene To Talk At A.I.E.E. Dinner Meeting

The student branch of the A.I.E.E. will hold its second student-faculty dinner meeting next Friday, June 8, at 6:00 P.M., in Pritchett Hall of the Walker Memorial Building. Professor William C. Greene, of the English department, will deliver an after-dinner address on the World-Security Problem. The cost of the dinner will be $1.25 for members of the A.I.E.E. Members are requested to sign up for the dinner at the headquarters of the Electrical Engineering department.

Wadel Is Elected Hillel President

Louis B. Wadel, 246, was elected President of the M.I.T. Hillel Society at a meeting yesterday in Faculty Lounge. The meeting was concerned primarily with the election of officers for the coming term. Marvin Sparrow, 246, retiring President, was the recipient of the Hillel Honor Key.

The newly elected officers are: Louis B. Wadel, 246, President; Raymond Kaplan, 1046, Vice-President; Kermit Greene, 246, Recording Secretary; Treasurer: Leonard J. Stutman, 247, Corresponding Secretary; Howard Perlmutter, 246, Publicity Chairman; and Richard Cotton, 2-47, Social Chairman.

L.A.E.S. Holds Election
For Officers on Monday

The Institute of Aeronautical Sciences will hold an election of officers on Monday, June 4, at 5:00 P.M. in Room 5-120. These officers will be chosen from the Class of 2-46 only.

The First Church of Christ, Scientist
